PRICE FIVE CENTS

THROGS SEEKING TO ATTEND HICKMAN TRIAL IN CALIFORNIA

Judge Orders Half-day
Passes, Thus Changing the
Audience Frequently

Sanity of Young Murderer Is
Only Question Before Los
Angeles Jury

Los Angeles, Jan. 25.—William Edward Hickman, kidnaper-killer of twelve-year-old Marian Parker, was brought into Superior Court here at 9.33 a.m. to-day for the opening of his sanity trial. He was in custody of a deputy sheriff and a jailer.

Superior Judge Carlos Hardy previously had rapped for quiet in the capacity-filled courtroom and formally opened the trial at 9.30 o'clock.

Hickman sat quietly between the deputy and his chief counsel, Jerome Walsh, at the counsel table. Several of the 125 courtroom seats were vacant. Men predominated in the scene, there being but a scattering of women in the seventy-six spectators seated, while the fifty places assigned newspapermen, court attaches and witnesses were occupied principally by men.

OBJECTION RAISED

The defense immediately introduced lengthy written objection to Judge Hardy presiding at the trial, which he slowly read. The court then handed the document to deputy district attorney, Forrest Murray, of the prosecution, who further held court action in abeyance by occupying himself with reading it.

The defendant's brother, Alfred Hickman, of Kansas City, occupied a seat inside the rail a few feet behind the counsel table.

Los Angeles, Jan. 25.—The legal drama of the sanity trial of William Edward Hickman, confessed kidnaper and slayer of twelve-year-old Marian Parker, which was opened here to-day, falls into the class known to the theatres as "two-a-days."

Beleagued by throngs of curious persons seeking the pasteboards admitting spectators to the trial, Judge Carlos Hardy has adopted the plan of giving half-day passes for the seventy-six seats available after fifty newspapermen, as well as court attaches are provided for.

Before this changing audience, the rival attorneys and the judge will steer the case along hither to undecided courses charted by the new California law governing insanity defenses.

SANITY ONLY QUESTION

Hickman's sanity—defined as the ability to judge between right and wrong—is the sole issue, and on this the jury of twelve is required to reach the verdict of twelve is required to reach the verdict.

BOARD SITS BUT J. PARENTE ABSENT

Immigration Inquiry in Van-
couver Delayed; Man Came
From United States

Vancouver, Jan. 25.—A. E. Skinner, immigration commissioner here, stated this morning that Joe Parente, San Francisco, "booked" for immigration yesterday refused to produce him before an immigration court, was now in the same position as before he was picked up by immigration authorities in North Vancouver December 30. This meant he was liable to rearrest.

Parente's counsel, Mr. Skinner said, took the chance of his being rearrested and having his bail increased when he failed to produce him yesterday.

ARREST REQUESTED

The immigration commissioner said the police would be asked to arrest Parente if they found him.

The opinion in immigration circles is that Parente is in Vancouver or its vicinity.

Parente was to have appeared yesterday before an immigration board of inquiry which was to inquire into his entry into Canada from the United States and his status here. C. S. Arnold, Parente's counsel, refused to produce him, claiming the arrest was illegal in that it was made without an order from the Immigration Department at Ottawa.

CHINESE LEADERS TO VISIT MANY NATIONS

Fifteen Nanking Nationalists
Start Tour; Ask Treaty
Changes

Shanghai, Jan. 25.—Two former members of the Nanking Nationalist Cabinet head a party of fifteen who to-day is on the first stage of a world tour. The men sailed from Shanghai yesterday aboard the liner President Wilson.

Dr. C. C. Wu, former Foreign Minister, and Sun Fo, former Finance Minister and son of the late Dr. Sun Yat Sen, are the leaders of the group which will spend a month in India and then go to Europe and North, South and Central America.

The unofficial purpose of the visit is to mediate in regard to treaties regarded as unequal by the Nanking Government and to establish relations between the Nanking Government and various nations.

ROYAL COMMISSIONS COST B.C. \$9,011

Investigations into campaign fund allegations and charges by Conservative members of the Legislature last Spring cost the taxpayers of British Columbia \$9,011, according to figures filed in the public accounts submitted to the Legislature yesterday. Of this \$9,011 was spent on the campaign fund inquiry; \$3,563 on the investigation into the Carlow charges; and \$5,448 on the inquiry into the Gauthier charges. Lawyers' fees represented the largest item of expense contracted by the royal commissions which conducted the inquiries.

Sloan Fears That Speculation In Mine Stocks May React Against Industry, If Overdone

BUNGALOW COURT FOR AUTOMOBILE CAMP

Permit Given By City For
Hillside Avenue Con-
struction

A permanent auto camp on the bungalow court style is provided for in plans filed with the city to-day by George Maynard, when a permit to cover the construction of the court at 765 Hillside Avenue was taken out. The bungalow court is the contractor in charge of the work, estimated to cost \$5,000.

The plans show eighteen two-room bungalow apartments in duplex sets of two each, with a central office and shower. Each apartment will have individual plumbing arrangement, a kitchen and living-bedroom.

The property faces on Hillside, with a depth of 187 feet and a mean width of 130 feet. The design will be after the California style, in frame and stucco, with four duplex dwellings on one side and four on the other, and one side and four on the other, and one side and four on the other.

The permit was granted on the condition that the contractor install separate arrangements.

FRUIT DEALERS NOW SUPPORT CONTROL

Committee of Direction Hears
Vancouver Views on Mar-
keting Plan

Vancouver, Jan. 25.—Vancouver fruit and produce dealers are of the opinion that without some form of market control, particularly in regard to potatoes, white men will have to abstain from both the producing and distribution of the crop in British Columbia. This view was expressed at a meeting of the British Columbia Fruit and Produce Credit Association held on Water Street here this morning.

DEALERS' VIEWS ASKED
The meeting was called at the request of F. M. Black, chairman of the Interior Committee of Direction, who attended with W. O. Hembling, a member of the board, and stated he desired to gain firsthand knowledge of the dealers' views on market control of potatoes.

Practically every prominent wholesale fruit and vegetable dealer in this city was present. Growers were not represented. The discussion was prolonged for more than two hours while dealers told Mr. Black of the effect of partial control of the producing areas of the Province in the Vancouver markets this year. No definite motion of any kind was made, but it was the consensus of opinion that the committee was powerless to improve the situation this year from the point of either the producers or consumers.

NEW LEGISLATION
It was suggested that attempt to control the marketing of potatoes this season should be abandoned and properly instituted over the whole Province for the next crop.

LITTLE JOE

YOU CAN DEPEND
ON YOUR JOB,
IF YOUR JOB CAN
DEPEND
ON YOU.

Mr. Volia and his wife left yesterday for a four-month vacation in Europe, extending to the Holy Land. He proposes to travel "the edge of the world" and then "walk around the rim."

"It will be," he said, "just like going around the rim of a big plate." Europe and Asia are near the rim, he said, and when he gets there Mr. Volia expects to proceed around the outside of the "flat world."

His first world theory is taught in the Zion City schools.

VOLIA TRAVELS TO PROVE TEACHING EARTH IS FLAT

Chicago, Jan. 25.—Wilbur Glenn Volia, overseer of Zion City and head of the religious colony there, who long has maintained the world is flat, is traveling to-day to prove it.

Mr. Volia and his wife left yesterday for a four-month vacation in Europe, extending to the Holy Land. He proposes to travel "the edge of the world" and then "walk around the rim."

"It will be," he said, "just like going around the rim of a big plate." Europe and Asia are near the rim, he said, and when he gets there Mr. Volia expects to proceed around the outside of the "flat world."

His first world theory is taught in the Zion City schools.

Death on Prairie Is Investigated

Pelly, Sask., Jan. 25.—That Joseph Hrabarchuk, sixty-eight, was shot to death to destroy possible evidence he might give in a case of grain theft now being investigated is the theory on which the provincial police are working. The body of Hrabarchuk was taken from a small cellar under his shack on the farm of John Kistelnick, near Pelly, yesterday and brought to town.

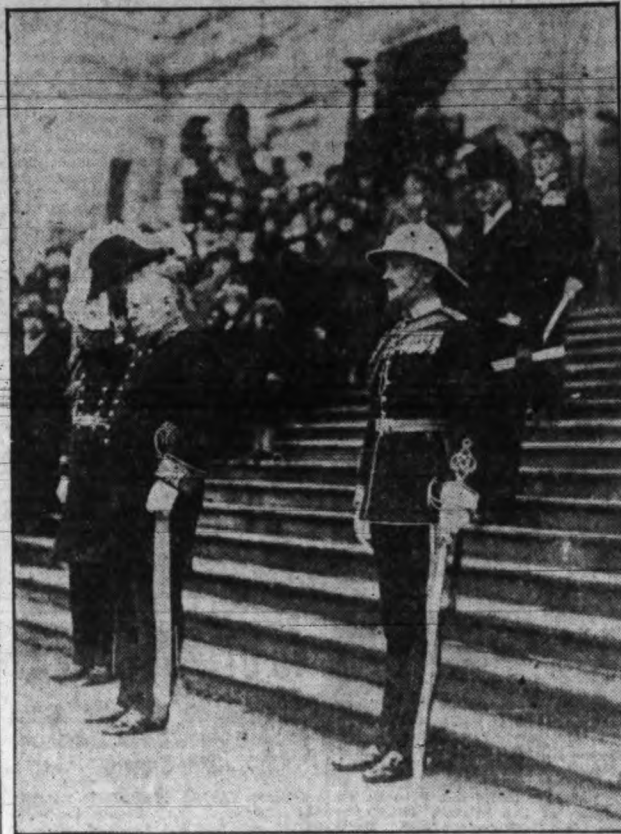

From a superficial examination by the coroner and police, it was found Hrabarchuk was shot under the left ear and later the body was thrown into the cellar.

Two men are detained by the police.

Service Delayed By Train Wreck On Kootenay Line

Fernie, B.C., Jan. 25.—A freight train wreck on the Crow's Nest line of the Canadian Pacific Railway, thirty-five miles west of here, between Coquill Junction of the Kootenay Central and Wardner, was reported here this morning. No particulars of the cause or seriousness of the accident were available out westbound passenger trains. It was stated, would be delayed five hours before the line was cleared.

LIEUTENANT-GOVERNOR TAKES SALUTE AT OPENING OF LEGISLATURE

His Honor Robert R. Bruce, accompanied by his aides, Major P. Hennessy, D.S.O., M.C., and Lieutenant Hay, R.C.N., at the Parliament Building, yesterday afternoon just before His Honor opened the session of the Legislature.

CHURCH IN NELSON DESTROYED BY FIRE

Nelson, Jan. 25.—St. Saviour's Anglican Church, mother Anglican Church of the Nelson district, was burned to the ground here early this morning. The fire occurred while a break in the water main in that locality was under repair. The loss is estimated at \$40,000. The building had been heated for early morning worship.

FOUR PEKING POLICE OFFICERS ARE EXECUTED

Peking, Jan. 25.—Execution of General Chen Shu-shang, chief inspector of the police of Peking, and four of his officers was announced officially to-day.

Chen was arrested recently on charges of blackmailing wealthy citizens by arresting them on false charges and offering to release them on payment of large sums.

He and his four subordinates were executed last Sunday.

\$2,500 IS ASKED IN SUIT IN VANCOUVER

W. Hodgkinson Plaintiff; D. B. Martyn, B.C. Industrial Commissioner, Defendant

Vancouver, Jan. 25.—Monetary compensation of \$2,500 is claimed by Walter Hodgkinson of Vancouver from Donald B. Martyn, Industrial Commissioner and British Columbia Deputy Minister of Industries, in an action which has come to trial before Mr. Justice Morrison in the Supreme Court here.

Hodgkinson alleges the defendant assaulted him September 30 last when the Industrial Commissioner evicted the plaintiff from the premises of the Ascor Diesel Engine (1926) Limited on Granville Street here. The company had been adjudged bankrupt by the Supreme Court on September 30 and Hodgkinson, secretary of the company, and Harold Dunn were appointed bailiffs by the custodian, the Prudential Trust Company Limited, to take possession of the assets.

CLAIM EXISTED
The Department of Industries had a claim against the plant under a conditional sale agreement, and Martyn, accused.

Heavy Snowstorm In Ottawa Region

Ottawa, Jan. 25.—Ten and a half inches of snow fell in Ottawa last night. This morning snow seemed to be falling faster than at any time since the storm started late yesterday. The entire equipment of the city and the Ottawa Electric Railway for handling snow was worked throughout the night and barely managed to keep the streets open. It is the heaviest snow fall of the season.

1927 WHEAT CROP

Ottawa, Jan. 25.—The total yield of wheat in Canada during 1927 is estimated at 440,054,709 bushels, 12,460,000 acres, according to a crop report issued by the Dominion Bureau of Statistics to-day.

SALE OF U.S. OIL RESERVE OUTPUT IS INVESTIGATED

Secretary Wilbur Wishes to
Know if Royal Shell Co.
Securing Supplies

Honolulu Concern Said to Be
Selling to British-owned
Company

Washington, Jan. 25.—Curtis D. Wilbur, Secretary of the United States Navy, has ordered an investigation to determine whether oil from naval reserves in California is being sold to the Royal Dutch Shell Company, a British-owned concern, by the Honolulu Consolidated Oil Company.

The Secretary acted after he had received a report from Rear-Admiral H. H. Rousseau, head of the navy's oil service, relating that such sales were being made.

He appointed Rousseau, Rear-Admiral John Halligan, chief of the bureau of engineering, and Rear-Admiral Edward Hale Campbell, judge-advocate-general, to make the inquiry and consider remedial legislation for recommendation to Congress.

SEVERAL SUGGESTIONS
Mr. Wilbur declined to go into details of the report, except to say it included "several recommendations" by Admiral Rousseau, one of them that none of the products from naval oil reserves should be sold to a foreign country corporation. He explained the Honolulu concern was one of several holding leases to reserve No. 2 in California, where oil production was continuous.

The main question involved, he said, was the disposition of naval oil to foreign corporations, apparently for export to foreign countries.

"I know nothing," Mr. Wilbur said, "about the relations of the Honolulu Company to other companies except what I have called attention to in connection with the proposed investigation, namely, that it reported they are selling the products of the naval reserve, and also the royalty oil which they are now purchasing from the Government, to the Shell Oil Company."

PARIS WELCOMES AFGHANISTAN KING

Crowds in Streets See Ama-
nullan and President Dou-
mergue Drive By

Paris, Jan. 25.—Paris put on its best garb to-day and welcomed Amanullah Khan, Amir of Afghanistan, who with his queen is making a tour of Europe. The spacious Avenue de Bois de Boulogne and the Champs Elysees were lined with troops and thousands of citizens stood behind the armed ranks as the king rode by. He was accompanied by President Doumergue and escorted by two mounted companies of the Republican Guard.

PERU CRUISER IS DAMAGED IN COLLISION

Colon, Panama, Jan. 25.—The commander of the Peruvian light cruiser Almirante Grau reported to-day by wireless that his ship had been damaged in a collision with the Peruvian submarine R-1 off Balboa.

The Almirante Grau is a light cruiser of 3,200 tons displacement, with a complement of 315 men. She was commissioned in 1906.

Firemen Fight to Save Man Found Among Spectators

Cumberland, Jan. 25.—Fire of undetermined origin partly gutted a building in Chinatown here this morning. The fire department responded with the hose truck and soon had the flames under control. The fire started in a locked bedroom and for a time it was feared that the owner of the building had been trapped there. Firemen soon battered down the door and, in spite of the suffocating smoke, made a thorough search, the missing man being afterwards located among the crowd outside.

FOUR IN SCHOOL KILLED BY TORNADO

Another Child Dying as Re-
sult of Violent Wind Storm
in Eastern Tennessee

Nashville, Tenn., Jan. 25.—Four children lost their lives, a fifth is dying and a score of others are under medical care to-day as a result of a tornado which destroyed the Holmes Creek School in eastern Tennessee, according to meagre reports received here.

First news of the casualties came when Houston Webb, a bus driver, arrived late last night from a mountain trip. He said the storm descended suddenly while a class was in session in the little mountain school yesterday afternoon and that the building was shattered before Grady Carter, the teacher, could herd his charges to safety. Carter was pinned beneath the building with a broken hip. Some of the class escaped uninjured, Webb said, but many were caught under the crashing debris.

No communication by wire had been established with the settlement to-day and Webb was unable to give further details.

RAILWAY COACHES FOR SOUTH AFRICA ORDERED IN BRITAIN

Capetown, S.A., Jan. 25 (Canadian Press Cable via Reuters).—It is understood a contract for fifty railway coaches costing £170,000 has been awarded to a Birmingham, Eng. firm in the face of keen competition from continental European companies.

The succession of important railway contracts recently given to Germany and the resultant statements from London that continuance of such a policy would be likely to react unfavorably against sales of South African products in Great Britain accentuated unusual interest in the railway administration's latest call for tenders for the supplying of railway equipment.

Freighter Adrift in Halifax Harbor Causes Excitement; Losses in Rhode Island Total Thousands of Dollars; Trees Uprooted in New York City

COASTGUARDS FIGHT TO SAVE SCHOONER

Providence R.I., Jan. 25.—All coast-guard men at the Point Judith and Narragansett stations, were ordered out this morning in an effort to prevent the wrecking of a two-masted schooner. The vessel, whose identity was not learned, sailed through the breakwater at the Harbor of Refuge, seeking relief from the high seas, but her anchors failed to hold and the schooner was in danger of piling on the rocks.

TICKET DRAWING FOR PROPERTY IS TESTED IN COURTS

Sale of Chances Will Be Sub-
ject of Ruling in Vancouver
Soon

Vancouver, Jan. 25.—A decision which is expected to have far-reaching effects on the disposal of property through the medium of the sale of tickets will be handed down here by Magistrate Shaw on Tuesday, January 31.

It arises out of the prosecution of J. D. Tait of the Canadian Legion, Post 60, West Vancouver, on a charge of "conducting a scheme whereby certain persons, who, being the holders of tickets, were to be winners of property proposed to be disposed of," or in other words conducting a lottery.

At the hearing yesterday afternoon Detective Sergeant G. McLaughlin told of purchasing a ticket in what was alleged to be a drawing for a house in Point Grey, and informed the court the defendant wished the matter should be made a test case and gave every assistance to the authorities.

NEW AUXILIARY WAR CRAFT FOR U.S. PLANNED

Washington, Jan. 25.—The aid of the United States Shipping Board in establishing a line of six combination passenger and cargo ships capable of crossing the Atlantic in four days, and designed as aircraft carriers for emergency war service, was asked to-day by the American Brown Boveri Electric Corporation. The Government is asked to advance a loan of \$44,500,000 for the project. The ships would carry 800 passengers and 1,000 tons of express cargo each.

STORM AT ST. JOHN

St. John, N.B., Jan. 25.—A southeast gale which at times reached a velocity of forty-eight miles an hour, did more or less damage in and about the city to-day. Fires in the Western Union Telegraph office were blown out when a hydro-wire fell across the company's lines, putting them out of commission for two hours. A large plate glass window was blown in, and three vessels in the harbor broke from their moorings.

Halifax, Jan. 25.—A high wind, which has caused a tide of from seven to eight feet, played havoc along the waterfront here to-day, particularly on the Dartmouth side of the harbor.

The Government Merchant Marine steamship Canadian Scottish, at anchor above Imperial, dragged both its anchors and started on a wild voyage up the harbor, imperiling shipping in its path and threatening serious damage to itself. The large vessel, traveling light with no cargo, was at the mercy of the seas, and tugs steaming behind failed to secure it, but fortunately the anchor caught and ended the vessel's exciting but harmless taste of freedom.

High seas swept across a railroad track, up a steep hill and into streets of Dartmouth. Wharves all along the waterfront were covered by the waves, which even mounted the breakwater at Pier 28 and made their way into the sheds.

Providence, R.I., Jan. 25.—Thousands of dollars' damage was done in this state early to-day by a sixty-mile gale which ripped roofs from buildings, brought telephone poles crashing down, and blew in one side of a factory.

The roof of a Barrington brick firm, 200 feet long, was torn off by the gale, and sent crashing on the tracks of the New York, New Haven and Hartford Railway, where it brought down the wires of the railroad and the Western Union Telegraph system. Train service was disrupted for several hours.

SHIP WENT ABOARD

The steamer Commonwealth of the New England Steamship Company was blown from her dock on mud flats. She later was hauled off by several tugs.

NEW YORK SUFFERS

New York, Jan. 25.—A gale swept New York early to-day, uprooting trees, shattering store windows, and ripping signs from their moorings. It followed a heavy rain last night which ended the warmest January 24 in fourteen years.

The highest wind velocity was sixty-six miles at 7 a.m. to-day. Shipping was warned of a storm of great intensity centering over Maine which would bring western and northern gales all day.

STORM AT ST. JOHN

St. John, N.B., Jan. 25.—A southeast gale which at times reached a velocity of forty-eight miles an hour, did more or less damage in and about the city to-day. Fires in the Western Union Telegraph office were blown out when a hydro-wire fell across the company's lines, putting them out of commission for two hours. 4 out of 5**

FOR THE GUMS

FEW people realize that Pyorrhea attacks even when teeth are clean and snowy white.

And as a result, this foe of health takes heavy toll from 4 out of 5 after forty and thousands younger. A needless sacrifice!

Take this precaution: See your dentist every six months. Every morning and night use Forhan's for the Gums. As a dentifrice alone, you would prefer it.

Without the use of harsh abrasives, it easily helps to keep teeth clean and white and also protects them

against acids which cause decay. Moreover, if used regularly and in time, it firms gums and helps keep them sound and alive, thus safeguarding them against the attack of Pyorrhea.

Get a tube of Forhan's. Use this dentifrice every day. Massage your gums daily with Forhan's, following the directions in the booklet that comes with tube. Teach your children this good habit. Two sizes—35c and 60c.

ARTHUR HERRIOTT

There are many ways to get temporary relief from ailments, but Husky, the herb preparation, is giving lasting relief and new health to thousands because it strengthens the body organs.

Mr. Arthur Herriott, 1231 May Street, Victoria has the following to say of his own fine experience with Husky: "For years I have suffered from constipation and stomach trouble. My stomach was so upset most of the time that I couldn't enjoy my meals and what I did eat caused me to suffer afterward. All the misery that goes with constipation was mine and this trouble and the condition of my stomach kept me weak and run down."

"At times I was hardly able to do my work. I finally decided to try Husky and now I only wish I had turned to this medicine before. I have used five bottles of Husky and its treatment has placed my stomach in fine condition, aiding digestion and given me an appetite. The constipation has disappeared since I have been using Husky. In fact, I have improved in health so much that my friends notice the change. I can recommend this medicine most highly to anyone suffering as I did."

"If you don't feel well go to-day to MacFarlane's or any other well stocked drug store and get a bottle of

"HUSKY"

BUILDING PROGRESS SUBJECT OF LECTURE

Manager of B.C. Underwriters' Association Addresses Victoria Branch

John L. Noble, manager of the British Columbia Insurance Underwriters' Association, was the chief speaker at the annual dinner of the Victoria and District Fire Insurance Agents' Association held last evening at the Chamber of Commerce. Mr. Noble took for the subject of his talk "Building Construction."

Telling of the problems faced in modern building Mr. Noble said: "There has been gradual development in building since the earliest stone age, when man lived in caves, dugouts or skin tents. Later on, huts were made of plastered clay with thatched roofs. Some, on piles over the water, showing forms of rudimentary carpentry. Sepulchres for the dead were made of stone in those times and were considered more important dwellings."

"Bronze was discovered about 3000 B.C. and iron in the seventh century, serving to alter many of men's habits and methods of constructing houses. In Chaldea, bricks made of clay were baked in the sun and becoming almost as hard as stone, were used much for building purposes. The rock cut tombs of Lyctum upon examination have been found to be copies of wooden structures," he said.

"The Greeks devoted much time to developing the column and lintel, producing designs used to the present day known as Doric, Ionic and Corinthian columns. Marble came into use at Athens in the fifth century and many beautiful buildings were constructed. The Romans enriched Greek columns and made that type of architecture something universal, as was the Roman Empire."

"Byzantine architecture was mainly ecclesiastical, with plenty of lavish decoration. Brick, mosaic, cut stone, mosaic work and marble were the principal materials used. It was about this time that the dome was developed, and many of our finest buildings today are enriched with one or more," said Mr. Noble.

"Saracenic architecture, in vogue in the year 700, produced the famous Alhambra, overlooking Granada, Spain, 150 years before Columbus discovered America. The Moors laid out thirty-five acres of buildings of marble, brick and stucco, with filigree walls, having the graceful appearance of lace curtains. The Alhambra stands unapproached in the annals of architecture and is a veritable fairyland. The Taj Mahal, in India, is the world's most faultless and beautiful building and took 20,000 men twenty-two years to build at a cost estimated at nearly \$50,000,000."

"Gothic architecture was developed in Northern France between 1100 and the fifteenth century and spread throughout Europe. Colored glass windows and pointed arches combine to make this style one of beauty and dignity. Cologne Cathedral on the Rhine is one of the best examples of Gothic design."

"Renaissance architecture of the fifteenth century displaced the Gothic, and there were more gradual changes until the middle of the eighteenth century, when a style of building from which our present designs were evolved was used," said Mr. Noble.

"Modern commercial buildings are usually of reinforced concrete with a steel framework and a foundation going down to bedrock. The foundation is of extreme importance, often taking longer to finish than the erection of the steel skeleton. Without the reinforced steel and concrete type of building a modern city would be impossible, but it will take about fifty years to find out if our modern skyscrapers are proper and wholly practical."

"The Hotel Imperial at Yokohama is one of the best examples of a building made to withstand earthquakes. It was found that a deep foundation would cause the building to oscillate, as the foundation underneath consisted of seventy feet of mud covered with eight feet of soil. Concrete piers were driven in and with cantilever slabs the whole building was floated upon the piers. The hotel took four years to build and withstood the earthquake of 1924 with absolutely no damage," concluded Mr. Noble.

J. B. Williams, Vancouver city solicitor, was among those present at the dinner.

**CUMBERLAND PLANS
PIONEERS' UNION**
All Those With Thirty-five Years' Residence Included

Cumberland, Jan. 25.—At a well attended meeting in the Council Chambers on Saturday evening, arrangements were made to hold the annual pioneers' social union on Wednesday, February 1 in the Ho Ho Hall, the celebration to take the form of a dance. Mayor A. Maxwell occupied the chair and considerable business was transacted. Mr. J. Cameron acting as secretary. Several changes in the previous procedure were suggested and discussed, and it was decided to throw the dance open to the public this year, instead of issuing invitations as in previous years. In addition to those real old-timers who have been the guests of the pioneers in former years, it was decided to extend a complimentary invitation to all those who have been continuous residents of Cumberland and Union and district for thirty-five years. Cumberland is to include the district west of the C.P.R. Railway Line.

The following committees were appointed: Hall, J. Horbury, Bonville, W. McLeellan, music, Wm. Whyte, Mrs. R. Robertson, Mrs. O. MacDonald; refreshments, Mesdames C. MacDonald, Marjorie, Carv, Robertson, Maxwell, Lockner, Mrs. R. Robertson and Gibson; reception, D. R. MacDonald, Wm. McLeellan, Mrs. and Mesdames R. Robertson and Maxwell; invitation, D. R. MacDonald, Mrs. R. Robertson and Mrs. C. MacDonald, Mrs. Lockner to act for Mrs. Robertson pro-tem; door-men, J. Horbury, Mr. Struthers, Derbyshire, door manager, W. Whyte. Arrangements for the music and refreshments were left in the hands of the respective committees and it was arranged that the hall committee act in conjunction with the floor manager in arranging for introductions and similar duties.

Rev. E. O. and Mrs. Robathan returned from Victoria Monday, spending the week end at Nanaimo en route, after attending the annual meeting of the Diocesan W.A. in the Capital City.

Mrs. H. Bryan returned from Victoria on Saturday, having attended the annual meeting of the Diocesan W.A. as a delegate from Holy Trinity Church, W.A., Cumberland.

Rev. A. W. Corker of Comox preached in Holy Trinity Church on Sunday evening in the absence of the Rev. E. O. Robathan who had been in Victoria during the past week. Mr. Corker preached a forceful and inspiring sermon on the Epiphany.

Mrs. R. Robertson left Vancouver on Monday.

Miss Laura Robertson of Vancouver has been visiting in Cumberland during the last week.

The Anglican hall was the scene on Saturday evening of one of the largest and most elaborate shows ever given by a society in this district, the Welsh Society honored Mr. and Mrs. George Hudson and Mr. and Mrs. Arthur Williams, whose marriages took place very recently. The hall was decorated in shades of yellow and green, alternate garlands of these colors radiating from the centre of the ceiling from which hung a large white wedding veil. The long tables were decorated in harmonizing colors, daffodils being used lavishly as a floral motive. Over eighty guests sat down to a delicious supper which included a variety of Welsh goodies, faggots and Welsh cakes being prominent in the bill of fare. Jack Davis made a very efficient toast master, opening the proceedings with a song to the two couples, the first intimation to either of them, that they were the guests of honor. W. Williams and S. Jones contributed songs to the programme which were much appreciated, while Mrs. Davis, after insistent demands, consented to give a humorous recitation which is one of her specialties. Harry Jackson, well known for his juggling acrobatic tumbling and funny stories kept the audience in roars, getting of some entirely new jokes and stunts.

During the evening Mrs. A. J. Jones, president of the Welsh Society presented the happy couples with a handsome lounge each, lavishly equipped by the hands and, crowning them on their new articles of furniture.

The Cumberland Post, B.E.S.L. held the usual weekly whist drive and dance at the Memorial Hall on Saturday evening. There was a good attendance and the prize winners for the evening were Mrs. Bagnoe first and Mrs. Buchanan second for the ladies, and T. Conn first, Mrs. A. Gray second for the gentlemen. Refreshments were served and music followed by Mrs. Hudson and J. Robertson. H. Thompson and Les Dando. The increasing popularity of these entertainments seems to be an indication of the interest which the public are taking in the post. Until recently, not many were aware of the fact that part of the funds so raised go to help our brother veterans who may be in temporary difficulties.

Jack Halliday left for Victoria, Monday, for a two weeks' vacation.

Amery Speaks in Federal Capital

Ottawa, Jan. 25.—Hon. L. C. M. S. Amery, Secretary for the Dominions, before the Ottawa Canadian Club yesterday afternoon pictured the Empire as on the dawn of a new era.

"We are to-day," he said, "witnessing the opening of a new era and the disclosure of a chapter and great preliminary chapter, but still only a preliminary chapter, of something even greater and more glorious."

The chapter which had just closed was that of the evolution of representative freedom within the Empire and, as landmarks in that evolution, Mr. Amery indicated:

1. Lord Dufferin's report inaugurating the policy of giving responsible freedom to the scattered communities round the world.
2. The Confederation of Canada, the first step in the union of scattered self-governing colonies into the nations of the future.
3. The Great War, in which Canada and the other Dominions showed they were nations, not merely in their constitutional structure but great nations in their power of united action and sacrifice, for a great idea.

Mr. Amery had a distinguished audience. Seated at the head table were the Governor-General, Premier King, members of the Cabinet, the Chief Justice of Canada and the Justices of the Supreme Court.

Pender Island

Pender Island, Jan. 25.—The Parent-Teacher Association met on Tuesday evening of last week at the home of Mr. and Mrs. S. P. Corbett and enjoyed a very profitable evening. The president, Mrs. Johnston, presided. Miss Graham, teacher of Division 1, was welcomed as a member and very willingly assumed the secretarial duties. The "question box," a new feature, proved its worth, and will be given a place at future meetings. A very interesting and helpful talk on "Reading for Children" was given by Mrs. McNeill, and a friendly discussion of relative problems followed. Refreshments were kindly provided by the host and hostess, to whom a vote of thanks was extended for their ever-ready hospitality. The February meeting will be held at Mr. and Mrs. Corbett St.

The Young People's Society held their regular weekly meeting on Thursday evening, with the president Mrs. S. P. Corbett, assisted by the vice-president, P. C. Stebbings, in charge of the programme. A most excellent address entitled "Life as a Challenge," was given by Rev. R. McNaughton. This week's topic will be "World Brotherhood."

The Young People's Bible Class, which is closely related to the Y.P.S., held a meeting at the home of P. C. Stebbings, assisted by the following officers: President, V. W. Menzies; vice-president, Mrs. S. P. Corbett; secretary-treasurer, Miss Elsie Bonman; teacher, P. C. Stebbings. The class meets every Sunday morning at 10 o'clock and extends an invitation to all young people and adults to join.

Mr. and Mrs. Geo. Taylor and Derwent Taylor, who have been making their headquarters at Browning Harbor for the past few weeks, expect to leave this week for Pender Island points.

A dance was held in Hope Bay Hall on Friday evening. A large party of young folks coming from Galiano and Mayne for the affair.

Stan Stiggins, who has been confined to his home with sciatica during the past few weeks, is able to be about again.

Mrs. R. H. Auchterlone and two children returned home last week, accompanied by her sister, Mrs. O'Neill.

ISLAND REMARKABLE AS FOSSIL AREA. CONNELL DECLARES

Sooke Especially Is Noted in Scientific Circles For Unusual Specimens

Rev. Robert Connell, who writes the weekly naturalist and scientific articles in The Victoria Times, lectured before the Vancouver Island Prospectors' Association last night on the geology of Vancouver Island. He said that the island was practically a mountain range, the Gulf of Georgia being a deep, water-filled valley.

The oldest rocks on the island are at Gonzales Hill, Leech River and Harbledown Island, Mr. Connell said. Fossils found in the limestones about Victoria are remarkable because they differ from any others found in North America, but resemble those in India and Europe. This may have some bearing on the theory of the movement of continents, said the lecturer.

Andesites, so abundant on Vancouver Island, are named after the Andes mountains, of which they constitute large masses. They are volcanic and contain corals from the coral reefs once prevalent in our seas for Vancouver Island probably began as a chain of volcanic islands in the ocean.

The Nanaimo coalfields were formed from "the vegetation in swamps on the sea. Incidentally, Sooke is famous toothed whale are found at Muir Creek, Sooke, and also fossils of the dugong, a mammal which still lives in tropical waters. Incidentally, Sooke is famous in scientific circles, said Mr. Connell. Many interesting slides were shown during the lecture.

BENNETT SPEAKS AT OTTAWA BANQUET

Conservative Leader Says
Prairie Population Growing
Too Slowly

Ottawa, Jan. 25.—Hon. R. B. Bennett, M.P., leader of the Conservative Party of Canada, was the guest of honor at a banquet given by the Liberal-Conservative Association of Ottawa last night which, with the opening of the session of Parliament scheduled for tomorrow, was attended by Conservatives from many parts of the country.

During his speech Mr. Bennett stated his views on development of natural resources for the benefit of Canadians, protection of Canada's waterways, and the policy of the Conservative government would consider adequate, and the development of trade.

"The attitude of this party is a simple one," stated Mr. Bennett, dealing with the waterpower question. "We have never failed to realize we are but trustees for the men and women of tomorrow and the hands of posterity must not be bound."

PRAIRIE POPULATION

Mr. Bennett believed the census figures of the three prairie provinces in 1921 as compared with 1926 presented "one of the most striking indictments against the policies of the country."

Despite the fact that hundreds of thousands of people had poured into those provinces, he continued, they had not shown an increase in population that would equal the natural increase by birth.

PARTY CAUCUSES

Mr. Bennett said he did not propose to announce any party policies "that may be within my mind." It was true, he said, "that at Winnipeg we laid down certain policies and resolutions to determine what should be the general course and attitude of our party; but the shaping and moulding of our policies must take place between the leader of the party and his lieutenants in caucus, in small groups and otherwise, in order that the attitude of mind of every section of this country may be determined."

GUTHRIE SPOKE

Hon. Hugh Guthrie proposed the toast in honor of Mr. Bennett. Sir George Perley, M.P., and Senator C. P. Beaudin also spoke.

IMMIGRANTS BEST OF EUROPEAN PEASANTS

All Families Arriving on the
Prairies Bring Capital, Say
C.N.R. Officials

Edmonton, Jan. 25.—In bringing settlers to Canada from Europe, the Canadian National Railways are securing the cream of the peasant stock, J. S. McGowan, western manager of the colonization department of the Canadian National Railways, told the Alberta colonization agents of the company at a conference in the Macdonald Hotel here.

"Families coming from the continent of Europe," Mr. McGowan said, "arrive in Winnipeg with from \$500 to \$600 in Canadian currency on their persons. In spite of the fact they have to spend in the neighborhood of \$1,000 for transportation and other expenses, this fact, it seems to me, should be sufficient to prove such people are enterprising citizens in their native lands, and should therefore be a standing citizen of this.

AID NEEDED

"How quickly they will become attached to Canada," continued Mr. McGowan, "depends to a large extent upon how you and I Canadians welcome them on their arrival. Especially is this true of how they are received in the sections where they are to settle. Upon the genuineness of their welcome and upon the aid they are given in the early days of their settlement will depend the type of citizenship they will develop."

More than forty colonization and land settlement agents of the company in Alberta attended the conference which was presided over by Dr. W. J. Black, director of colonization, who had come from Montreal especially for the purpose.

PRAIRIE LEGISLATION

Regina, Jan. 25.—Measures providing for old age pensions and the imposition of a gasoline tax were among the more important of the forthcoming legislation referred to in the speech from the Throne at the opening of the third session of the Sixth Legislature of Saskatchewan yesterday. In addition to this, notification was given of the proposed agreement between the Province and the Dominion with regard to policing and the possibility that this will be ready for presentation to the House.

**For
Winter
Health**

**ROMPING OUTDOORS... playing
in the snow... careless of wind and
weather... kiddies need a cup of Baker's
Cocoa every day in winter. Need its rich
warmth, its extra nourishment. And
they love its real "chocolate" flavor—the
mark of the Baker special blend of the
finest quality cocoa beans—the only blend
which produces the rich, distinctive Baker
color. Always use Baker's Cocoa. Look
for the Chocolate Girl on the label.**

Wherever the recipe calls for chocolate, use Baker's Unswartened Chocolate. Famous cooks always insist on Baker's. Try this recipe.

CHOCOLATE CAKE—1/4 cup butter, 1/4 cup sugar, 1/4 cup milk, 1/4 teaspoon vanilla, 3 egg-yolks, 9 ounces (3 squares) Baker's Unswartened Chocolate, 1 1/2 cups Swiss Down Cake Flour, 3 teaspoons baking powder, 3 egg-whites. Cream butter, add sugar gradually, then beaten yolks, milk, vanilla and chocolate melted. Mix and sift flour with baking powder and stir into the liquid. Fold in the stiffly beaten whites last. Turn into buttered shallow cake pans and bake in a moderate oven about 20 minutes.

How to make Cocoa
4 tbsp. Baker's Cocoa, 4 tbsp. sugar, few grains salt, 3 cups milk, 1 cup boiling water. Scald milk in double boiler. Mix cocoa, sugar and salt, and add water gradually that mixture may be perfectly smooth. Boil three minutes. Pour into scalded milk and beat two minutes. This makes one quart.

REWARD FOR COURAGE

Toronto, Jan. 25.—Alex Hodge, the
Beeton Ontario farmer who fought and
killed Daniel Forsythe with his bare
hands last summer when that man
tried to rob him on his lonely farm at

night, will be given a position of a
supervisory capacity on the Ontario
Government farm at Whitby, Ont.,
has announced. Hodge's act was the
means of the uncovering of an ex-
tensive cattle rustling gang around
Beeton.

Yes, I learned this new Speedwriting during my holidays

WHY DON'T YOU LEARN IT TOO?

Miss Business: "I learned Speedwriting, the wonderful new shorthand, during my holidays in my spare time. Shall I take your dictation this morning?"

Employer: "You know no shorthand a month ago. Is it possible you can have learned so quickly?"

Miss Business: "Yes! Speedwriting is so easy. It uses nothing but the ordinary A.B.C.'s of the alphabet. So you waste no time in learning difficult symbols, and you begin using it after the first lesson—but let's start the morning's work so that you can judge for yourself!"

Employer: "Well done! You write fast enough, but now can you read your notes?"

Miss Business: "Yes, Speedwriting is so easy—you can almost read my notes yourself."

Employer: "So I can. I have a good mind to learn Speedwriting myself—it would be so useful."

Miss Business: "I learned in a few weeks, and so can you—in your spare time! Then you can Speedwrite your notes for me to type. Or I can give my notes to any other Speedwriter in the office to type, while I go on taking fresh dictation from you. Speedwriting has made me a much more valuable member of your staff."

Employer: "I admit it! We shall have to consider raising your salary."

Miss Business: "So I shall have made my holidays pay for themselves many times over!"

You can type Speedwriting on any machine
as well as write it with pen or pencil

DEPT. P. ROYAL BANK BLDG., TORONTO, ONTARIO

HIGHLAND PEOPLE PAY TRIBUTE TO SCOTLAND'S POET

Clans Gather in Great An-
nual Dinner of Burns Club

Gathering from far and wide, representatives of every clan, Highland men and women, will join to-night at an annual dinner in the Chamber of Commerce in memory and in honor of Robert Burns, immortal bard of Scotland. The banquet of the Burns' Club commences at 7.45 o'clock.

The number of guests at this evening's gathering will eclipse all previous records. From its inception in this city, the Burns' Club has steadily grown. Each succeeding banquet has been a bigger success than the last. For the last two years only, women have been permitted to attend. Time was when the Burns' Club here was composed of a select few who met quietly and ate haggis and drank toasts.

STEADY GROWTH

The Burns' Club grew. Eminent men joined its ranks. The annual dinners found packed tables, laden with dainty food, but still with room for more. The club has steadily grown. The club sought larger quarters for its banquets. And when the ladies were invited to attend last year for the first time, and this precedent was established, it was found necessary almost to double the accommodation.

His Honor R. R. Bruce, Lieutenant-Governor of British Columbia, will be a guest of the Burns' Club this evening.

GREETINGS SENT

The club is sending out greetings to sister organizations to-night, greeting in verse from the pen of the club bard, W. Hastie Cochrane. This is as follows:

"The Spirit of Scotland: see, a-thwart the vast heath
From out the bold North she sails sailing
And round the hazy world on this night
Which we treasure as the true guiding star.

"The Spirit of Scotland, with a message to mankind
Of brotherly service, which nations shall feel.
Lan' Tyne she sailed forth from the cottage at
Ayrshire, the true, honest ploughman Rab Burns at the wheel."

"May blessings rest upon you, and a good night."

WHAT WE'LL HAVE

"Some hae meat and canna eat,
And some wae eat that want it.
But we hae meat, and we can eat,
And sae the Lord be thankit."

Queen Olives Celery
Jolly Beggars' Punch—Cockle-Leekie Soup
"They sit 't the neuk, suppin' hennies."

Roastit Bubbly Jock Soo's Leg
Roastit Strik w' Trimmings
Chappit Tatties Chips

"Was worth the loon who wadna eat
Sic halesome, dainty cheer, man."

Salad w' a' things intill
"Food fills the wame, an' keeps us
livin'."

Royal Scotch Haggis
Wi' a' the honours, an' a' the pomp
Intill

"And on our boards that king of foods
a guid Scotch Haggis"
"Fair fa' your honest, sonsie face,
Great chieftain o' the puddin' race."

Mauchline Mince Pie w' Whuppit
Mossie Puddin' an' Fruit Jellie
(Trimlin' Tam)

Assorted Fruits
Ait Cakes Kebbuck Coffee
New Market Tea

Barley Bree frae weel-kent Scottish
vineyards
Soor Dook for teetotal folk an' seltike

"Ye've given us wealth for horn and
Nae heart could wish for more."

The programme to-night will be as follows: What We'll Have

John Hostie, chairman

The King—National Anthem

Song—"The Wae Was a Leetle" (to be sung by the company, led by Wm. C. Fyfe)

The Navy, Army and Air Forces—The chair

"They've lost some gallant gentlemen"
Song—"Scots Wha Hae" (sung by the company)

Reply—Commander P. W. Nelles, R.C.N.

Reply—Colonel W. S. Latta, D.S.O.

Song—"Corn Rigs"
Toasts to the Immortal Memory

By the Hon. Mr. Justice M. A. Macdonald

Song—"The Road to the Isles"

Major W. G. H. Pirith

Presentation of Burns's Memorial Cot to Royal Jubilee Hospital

Burns Club of Victoria—His Honor R. Randolph Bruce, Lieut.-Governor

Piano selection—"Scottish Airs"

Mrs. J. P. Jaffray

Reply—Rev. Robert Connell

Song—"Up wi' the Carls o' Dyarn"

Mrs. W. H. Wilson

The Ladies—The chair

Song—"My Love She's But a Lassie Yet"

Major W. G. H. Pirith

Reply—Miss K. Jaffray

Song—"Loch-na-ea"

Mrs. C. L. Armstrong

FRUIT DEALERS NOW SUPPORT CONTROL

(Continued from page 1)

F. R. Stewart stated that if the Fraser Valley could be brought under control doing so would probably solve the problem, but Mr. Black stated that it would be impossible to get any amendment to the act in time to handle the present crop.

COMMON GROUND

It was apparent that white producers and distributors had at last found common ground on the matter of marketing. Arthur Brencley and many others stated it was only a few years ago since white men had complete control of production and marketing. To-day, he said, the Orientals were practically the masters of the situation and without some form of control the white men at both ends of the business would be completely eliminated.

C.P.R. PLANS NEW SASKATCHEWAN LINE

Winnipeg, Jan. 25.—Extension of the Canadian Pacific Railway into the Northwest of Saskatchewan was forecast to-day by E. W. Beatty, president of the company, on his arrival here.

The work will be a continuation of the line which runs north from Wadena and ends at Nipawin, almost due east of Prince Albert. Connection with Prince Albert will be made by a line joining the city and Nipawin.

Asked if this would mean an eventual extension to Hudson Bay, Mr. Beatty said that was a future possibility.

GREAT GAINS

The mining development on the western border of Manitoba, he said, looked very fine over a large area. It looked as if the pre-conceived idea of an extended mining belt was going to come true. This would be a great thing for both Manitoba and Canada. The possibilities were tremendous, he said.

The C.P.R., Mr. Beatty said, did not plan to build into the Manitoba mining country as that district would be served by the Hudson Bay Railway.

Fine Programme Will Be Run Off at "Y" Swimming Gala

A very interesting programme of unique novelty events has been arranged by the Y.M.C.A. swimming club and will commence promptly at 8 o'clock to-morrow night in the pool at the Y.M.C.A. building.

Several new features will be introduced, among which will be a fifty-yard event using the foot action of a crawl stroke along the pool wall. The local swimmers carry in their feet. Johnny Weismuller, the noted aquatic star, can swim as fast as the average swimmer over this distance with his feet alone. Tommy Weiburn, Ken Derbyshire and the other local stars will endeavor to beat a junior swimmer using both feet and hands over this distance.

The relay events are attracting a lot of interest as the committee are endeavoring to place on relay teams of both the junior and senior events, using two ladies and two men on each team, and great rivalry is being shown among the individual swimmers.

The local swimmers will be the following: A. Griffin, Gwen Bailey, Pat Copeland, Grace Welch, D. Jones, F. Gates, J. Jones, H. Beck, E. Peden, J. Sheppard, J. Hibberd, Tom Weiburn, Frank Gilbert, B. Robertson, Ken Derbyshire, Bill Peden, B. Dickson, Bill Phillips, G. Parrott, R. Gordon, A. Young, E. R. Moore, C. Stewart, R. Healy, R. Riddle and Chris. Usher.

\$2,500 IS ASKED IN SUIT IN VANCOUVER

(Continued from page 1)

According to J. D. Mather, accountant for the Prudential Trust Company, threatened to throw the custodian's bailiffs out with a number of strong men of with the provincial police.

Accompanied by Donald H. McDonald and H. H. McCough, the defendant, who was in custody, arrived on the scene at 4.30 p.m. and announced: "I have had enough of this foolishness."

HIDE DOWNTOWN

Both Dunn and Hodgkinson, as testified to by the plaintiff's witnesses, were in turn unceremoniously thrown out of the door by Martyn. When the defendant requested McCough to call the provincial police, Dunn is said to have remarked: "What's all right. I'll get a ride downtown."

Knowing Major Martyn's temper, Hodgkinson testified he expected to be put out, but that he was not afraid.

SECOND CLAIM

A similar claim is pending by Dunn against Martyn and it will abide the judgment in the Hodgkinson trial, by arrangement between counsel.

Three days after the Industrial Commissioner had taken possession of the plant, he and his men were in turn evicted under an order of Mr. Justice Morrison. The judge restored the custodian into possession on the application of Mr. Hamilton read on October 3.

The defendant has in his defence denied he committed an assault.

SCOTTISH FOOTBALL CUP GAMES ARE SET

London, Jan. 25. (Canadian Press Cable)—The draw for the second round of the Scottish Football Association Cup series, to be played February 4, was announced to-day as follows:

Forfar-Kilmarnock
Forres-Mechan
St. Mirren-Vale of Airth

Dundee-Dundee
Dundee-Union-Fairlie
Partick-Rutherglen
Stenhousemuir-Alloa

Ayr United-Falkirk
Armadale-King's Park
Motherwell-Raith Rovers

Greenock-Cornhill
Airdrie-Hamilton
Queen's Park-Morton

Brechin City-Albion
Third Lanark-Riverbank
Leith Athletic-Celtic

The games will be played on the grounds of the first-named clubs.

KNIGHTS OF THISTLE DO HONOR TO BARD

Celebrated Burns Anniversary
Last Evening at Banquet

Over 200 assembled in the Temple Hall last night to commemorate the memory of the immortal bard, Robbie Burns, the celebration being held under the auspices of the Knights and Dames of the Thistle. K.O.G.C.J. McMillan introduced the chairman, Alex. Marshall, who with a few well-chosen remarks opened the proceedings.

The address on the Immortal Bard given by the chairman, Alex. Marshall, was given a rousing reception and heartily applauded.

The toast to "Our Native Land," was also received with enthusiasm as proposed by H. Roston and replied to by R. Noble. In the absence of W. W. W. Noble, who was unable to attend, but appeared later in the evening. K.O.G.C.J. Carmichael, in a few well-chosen remarks proposed the toast to "Our Guests," and responded to by G. Stewart. K.O.G.C.J. McMillan gave the address to the haggis. The toast proposed by Mr. Munkley, that to "The Knights and Dames of the Thistle," expressed his feeling towards them for the good and great work done by the organization. It was ably responded to by P.K.O.G.C.H. Reid, who said, they endeavored to live up to the reputation of their forefathers, and for a better and nobler feeling towards all brother Scots. A hearty vote of thanks was proposed by K.O.G.C.J. McMillan on behalf of the chairman to the artists who kindly assisted to carry out this annual event successfully, including Miss McPhail, T. Rhodes, Miss McGowan and Mr. King for songs.

Immediately after the gathering, they adjourned to the ballroom where they danced the old-time dances to the strains of Fiedler's orchestra until 1 p.m. During the dance programme, little Isabelle McLean entertained the audience with a Dutch dance, and rendered the song entitled "When the Bonnie Bonnie Heather is Blooming."

Mr. Wistart contributed selections on the bagpipes. Great credit was due to Dame Hunter as convener and her able body of workers who decorated the tables and arranged the affair so successfully.

THRONGS SEEK TO ATTEND HICKMAN TRIAL IN CALIFORNIA

(Continued from page 1)

a unanimous verdict. If found sane the young defendant will be sentenced by Judge Hardy either to life imprisonment or to be hanged.

If Hickman should be found to be insane now or to have been insane at the time of the crime, some legal authorities declare he would be sent to a state hospital for a year and then could demand a sanity trial. If then found sane, these authorities contend, he would be given his freedom.

PLANS OF COUNSEL

The prosecution forces announced they would play a waiting game, most of their evidence probably being brought as rebuttal testimony.

Jerome Walsh, chief defence counsel, declared he had not yet decided whether to place on jury teams the mother, father and brother of Hickman, all here for the trial.

Four hundred and fifty pages of depositions obtained from Arkansas, Oklahoma and Missouri witnesses will be offered. Four expert witnesses—physicians and psychiatrists—will testify for the defence and seven for the prosecution.

SLAN FEARS SPECULATION IN MINE STOCKS MAY REACT AGAINST INDUSTRY IF OVERDONE

(Continued from page 1)

of values, the situation is very interesting. It is clear that outside attention is being directed, as never before, to the economic possibilities of the mineral wealth of British Columbia and other sections of the American Northwest. This follows two recent years of metal production in this Province, and in the circumstances is not as surprising as it might seem to those who have had no direct concern in the industry. At least it would appear, mining prospects are to have the funds needed to prove or disprove the claims of their owners as to their merit. Last year saw more mining development, both in respect of lode and placer mining, than has taken place in any one year for a decade. This year will far outstrip 1927 in this regard, and, besides, will find a number of new producers on the shipping list.

"While this is all very encouraging and gratifying, I should like to be sure that the trading now being done in mining stocks, as far as those who are just awakening to the fact that there is a mining industry are affected, is not carried to too great lengths. After all, an investment in a speculation should be based on some reason, and should not be a result of impulse alone. We must avoid a reaction that would hurt the continued progress of the industry."

"I may say that annual reports of the Minister of Mines contain references to practically all mining properties and promising prospects in the Province. They are available on application without charge, and a general invitation is extended to all interested to apply for the same either in person or by mail. If applicants will mention the particular property or properties of which they wish information, references will be given for their assistance."

High Bail Is Set For Roy Olmsted

Seattle, Jan. 25.—Although the United States Supreme Court has ordered his release from the penitentiary, Roy Olmsted, one-time Pacific Northwest rum baron, may not get his freedom.

Unless he is able to obtain the high bail the Government will try to have set for him, he will remain in the King County Jail pending the outcome of his appeal, which is set for February 20. Olmsted's attempts to raise bail shortly before he was taken to the Federal Penitentiary on McNeil Island were not very successful.

In a telegram from the clerk of the Supreme Court received yesterday afternoon, further escapement of sentences against Olmsted and his co-defendants was ordered stayed and the prisoners admitted to bail.

Final Clearance of Afternoon Silk Dresses

3 Groups Greatly Reduced for
Thursday's Selling, at
\$17.50, \$19.75, \$25

Included in this very special three-group clearance offering of Women's Smart Afternoon Silk Dresses you will find a splendid selection of the most becoming styles in black as well as wanted colors. WARD THREE LIBERALS ELECT EXECUTIVE

G. J. V. Spratt, President of
Liberal Association, Gives
Address

Ward Three Liberal Association held their first meeting of the year at Liberal headquarters last evening. The president, G. J. V. Spratt, was in the chair. The business of the meeting was the election of the ward executive.

After the business C. J. V. Spratt, president of the Liberal Association, gave a most interesting address on the ward and aims of the Liberal party from the time when Sir Wilfrid Laurier came into power up to the present time. A hearty vote of thanks was tendered Mr. Spratt.

What Doctors Think of the Laxative Habit

In all history, no Indian has ever known to have constipation. Nor need you. He chewed the bark of a tree called cascara. To-day, we have the candy cascara.

Cascara is the bowels never forms a laxative habit. If you already form an occasional laxative will usually break the habit. For cascara strengthens the muscular walls of the bowels, and their need of artificial aid at all grows constantly less. What other cathartic has this characteristic? The writer knows of none.

An evacuation brought gently about by cascara will, nine times in ten, be followed by full functioning of the bowels on the morrow—and for days after. For there is no REACTION as with sickening salts, or any of the man-made purgatives that go through one's system like a bullet.

Physicians tell us cascara is the ideal laxative—and the tongue tells us candy

cascarets are its ideal form. At least a million people know this; what a pity there are any who don't! Especially parents, because children love to take a cascara. After which, for days-on-end, the bowels will be seen to work of their own accord.

The only habit for cascara is that of regularity. Cascara tones and trains the bowels. But at the first sign of returning sluggishness another cascara is as effective as the first.

There isn't a druggist who hasn't cascarets, so WHY experiment with laxatives?

They Work While You Sleep!

STORY OF FLIGHT
FROM EGYPT TOLD
IN HAGGARD TALE

"Moon of Israel," taken from the famous novel by Sir H. Rider Haggard, is showing now at the Coliseum Theatre. At its world premiere in New York critics were amazed at the intensity of some of the sets, and questioned their authenticity. Men who have made these things their life study were consulted, together with eminent members of the Jewish

Playhouse—Vaudeville.

church. The result was that the accuracy of the picture was commended, both in regards to architectural and religious matters.

This is easily understood when it is considered that Sir H. Rider Haggard is the author of the story, and that the picture was made under his personal supervision. Those who have read the books by Rider Haggard know that there is never any material in his books that is not the result of personal experiences or infinite research, and in

"The Moon of Israel" no trouble was spared to bring the same spirit of reality to the screen.

Vaudeville at the Coliseum, is a riot this week. The opening act presents Eileen Bennett, the popular local girl, singing two very good numbers that are well received. Next comes the Curry Sisters, and "Bew" Scriven, a highly recommended act from the Mainland. The Curry Sisters have just finished an extended run at the Belmont Cabaret in Vancouver, while Scriven is well-known over the Radio, having broadcasted over most all of the stations on the Pacific Coast.

WESTERN THRILLER
STARS TRAINS FOR
HIS PICTURE PART

Robert Custer, whose latest starring FBO production, "The Fighting Hombre," is playing at the Variety Theatre, is said to be the busiest member of the screen colony. When not working before the cameras, the Western star trains strenuously to keep in excellent physical condition and devotes himself untiringly to devising new thrills for his next production. Also on the same bill is Syd Chaplin in "The Missing Link."

ACTRESS CLAIMS
SHE LIKES SCREEN
MORE THAN STAGE

The screen has a broader appeal than the stage for Virginia Lee Corbin, while Edward Everett Horton divides his affection between the two. These two are now at the Playhouse Theatre in "The Whole Town's Talking" in which they are the featured players. The cast are Orla Harlan, Tydie Friganya, Robert Ober, Aileen Manning, Dolores Del Rio, Margaret Qumby, Hayden Stevenson and Malcolm Waite.

EDITING "BEN-HUR"
FEATURE PICTURE
WAS GREAT TASK

The task of cutting and editing the Metro-Goldwyn-Mayer screen version of "Ben-Hur" in two languages and on two continents was by far the most gigantic enterprise ever undertaken for any super-feature. The total of the negative film exposed during the making of "Ben-Hur" amounted to 1,900,000 feet, which is 900,000 greater than that of "The Four Horsemen of the Apocalypse," which is the nearest competitor. From this mountain of celluloid 850,000 feet of positive were printed, more than double the entire footage of "The Big Parade."

COLUMBIA FEATURE
SHOWING LAST TIME
HERE THIS EVENING

"Two Girls Wanted," Fox "lma" latest feature, starring Janet Gaynor, at the Columbia Theatre, will have a final showing to-night. This delightful comedy drama shows Miss Gaynor in a role that is decidedly different from the one which lifted her to the height of fame in "7th Heaven." None who have seen her in the part of the little street waif in the former production would suspect her of being able to play a comedic role as she does in "Two Girls Wanted" with such happy success.

GRAHAM FRENCH AND ORCHESTRA COMING TO CAPITOL FRIDAY
To all those who are interested in the latest dance and novelty numbers that are being presented in the larger centres at the present time, the announcement that the management of the Capitol Theatre have been able to secure as an added attraction, in addition to the regular picture and vaudeville programme, Graham French and his Collegian Orchestra from the University of Washington, a real good and something new in the way of novelty numbers which are at present sweeping the country from end to end, will be presented.

The following is the personnel of the orchestra: Graham French, violin; Aubrey Knott, piano. Has just returned from Paris where he played for the Chanticleer and Montmartre; Ken Freeman, trumpet; Vic Whitlock, clarinet and saxophone; Dick Cook, singing banjoist. Cook and Whitlock have been broadcasting with Warren Anderson's orchestra; Baxter Felch, traps.

Shriners Get Together Nearly Killed Him
Mr. H. H. Paradise, New York City, writes—"Los Angeles was selected for the Shriners' Get-together in 1925, and I joined them. My bowels did not move daily, and I became constipated; sick headache, indigestion, followed by a dull, lazy, achy body feeling put me in bed and I nearly died. A brother Shriner insisted upon giving me your CARTER'S LITTLE LIVER PILLS. My only answer is they saved my life. All Druggists, 25c and 75c red packages. (Adv.)

FLAME DIVER SOUGHT
FOR DOMINION TOUR

George MacRae to Make Appearance at Press Club Potlatch

George MacRae, daring flame diver who thrilled thousands of people at the Press Club frolic for the Soarium last year, has been requested to take a Dominion tour, performing his sensational feat at the most important cities of Canada. Mr. MacRae has perfected a stunt that promoters seek to bill as a headliner.

Mr. MacRae has consented to repeat his stunt at the Press Club Valentine potlatch to be held at the Crystal Garden February 14. Ivan Aude, in consultation with the promoters, will erect a platform for the occasion so that all attending the potlatch can get a perfect view of the diver from the time he starts to climb to the roof to the moment he plunges from his lofty pinnacle in a mass of flames.

UNIVERSAL FEATURE
AND FINE VAUDEVILLE
POPULAR AT CAPITOL

Glenn Tryon, who is co-starred with Patay Ruth Miller in the Universal production, "A Hero for a Night," at the Capitol Theatre, claims that he is in a position to know how the motion picture exhibitor feels when a production fails to live up to advance notices.

When Glenn was a youth, in association with Lynn Cowan, popular song writer and musician, opened a picture show in their home town of Butte, Montana. Once they contracted for a film and flooded the town with news of the feature-length production.

The day for the grand premiere arrived, but no film. Tryon scouted around and showed the crowded house five reels of pictures, but three of them told a tale of a Western cowboy and

the other two the wonderful scenic views around Niagara Falls.

"We sold out for practically nothing that same night," Tryon explains.

The vaudeville attractions at the Capitol Theatre for this week are entertaining and introduce to Capitol fans stage talent far above the average.

Last night the audience was exceptionally enthused over the various turns, which include Jessie Miller, the premier comedienne of the Pacific Coast, in a delightful musical offering, Flip and Flapper, a comedy dance duet, offering new and novel dance creations; Belle McEwan, always a great favorite here, was also greeted with rousing applause from the audience at the close of her song selections, which were rendered in a very tuneful and artistic manner. The Capitol Concert Orchestra.

CHAPLIN SUES
FOR \$62,147

New York, Jan. 25—Suit has been filed here on behalf of Charles Chaplin, film comedian, against the First National Exhibitors' Circuit Inc. and First National Pictures for \$62,147.52, alleged unpaid income on films shown abroad.

Chaplin claims he was to have received seventy per cent of the \$37,947.02 gross realized by the defendants from foreign exploitation, but that he actually received only about twenty-three per cent.

The defendants deny Chaplin was to receive seventy per cent of the gross income, and assert that after paying William Vogel, of the William Vogel Production Inc. twenty-five per cent for

distributing the films, they deducted costs and then retained thirty per cent of the net, giving the remainder to Chaplin.

The comedian disavows any business connections with Vogel.

A motion also was filed yesterday for an order to examine William Vogel and the William Vogel Productions Inc. before trial of the suit, as to money received from foreign distributors between December 3, 1920, and December

30, 1925, for exhibition of Chaplin's costs and then retained thirty per cent of the net, giving the remainder to Chaplin.

Football Fan—Jones is improving, he'll soon be our best man.

Fair Companion—Oh! Do you really mean it, darling?—Passing Show.

When you get that tired, lay-me-down-and-die feeling take 15 to 30 drops of Seigel's Syrup in a glass of water. Does the trick and safely. You'll feel like new.

NEWS IN BRIEF

"The Wonders of the Eye" is the subject of a radio talk on the "Care of the Eyes," by Joseph Ross, optometrist, over station CPCT this evening at 8.30 o'clock.

The application to Mr. Justice Gregory in Supreme Court chambers for direction regarding the shares in the "Seaboard Waterworks" in the will of Benjamin W. Pearce was continued to a sitting this afternoon.

The annual meeting of the British Columbia division of the Canadian Red Cross Society will be held in the blue room of the Vancouver Hotel on February 2, at 3 p.m. All members of the society and those interested are invited to be present.

The appeal of William Mackenzie against the County Court judgment of Judge Grant awarding \$207 damages to the Estates Investment Company for damages to property of the company on Cordova Street Vancouver by Mackenzie's car driving into it is proceeding in the B.C. Appeal Court.

A tour of condemned buildings by Acting Mayor Marchant and members of the City Council began this afternoon. The tour was led by officials of the City Health Department to inspect a list of premises marked for repair or demolition. A public hearing will be granted later at which owners will be heard in respect to their properties.

Frank M. Hunter, City Clerk, was the speaker at the meeting last evening of James Bay United Church, when he spoke on the American social penetration of Canada. Robert Blair presided at the meeting and during the evening Miss Hawthorne gave two violin solos, accompanied at the piano by Miss May Mason. "O Canada" and "The Maple Leaf" were sung by the gathering at the opening and close of the meeting.

In Centennial Church this evening Rev. C. A. Williams of Vancouver will deliver a lecture on "The Debate in the Revised Prayer Book—What It All Means to Britain and Protestantism." Mr. Williams will deal with the event in relation to the welfare of British and the general interests of the church as a whole. This is the first of a series of lectures to be given in Centennial Church this season as arranged by the congregation. Miss May Mason and F. Wright will be the soloists on this occasion. The programme will commence at 8 o'clock. The public is invited.

Dr. A. F. Barton will give another of his popular health lectures in the New Thought Temple to-night at 8 o'clock on the subject of "Bombshells." The lecture will be followed by demonstrations of diagnosis from observations of the eyes. Haven't you often wondered why your eyes are green, blue or brown? asks Dr. Barton. "Isn't it remarkable," says Dr. Barton, "that we know so much about the structure of the eye, but know so little about its function? Science can inform you all about the moving stars and the invisible microbes that surround us; but so far no great scientist has stopped to investigate the phenomenon that one easily observes in the human eye."

Scotch Programme Will Be Broadcast Over CFCT To-night

In commemoration of Burns anniversary the management of CFCT has arranged to broadcast another Scottish programme this evening.

Robert Chambers Sloan, Scotch comedian, poet-author and entertainer will be heard over the radio.

Mrs. Bertram Mayell, soprano, will be heard in solo offerings. James Taylor will sing the hymns of the evening, and Fred L. Jones will contribute tenor solos. Jack Moore, boy soprano will sing making his first radio appearance over CFCT, and Donald Cameron, piper, will lend an atmosphere to the occasion.

There will also be a short sketch, describing humorous and pathetic incidents in the life of Robert Burns, given by J. Fyfe Wilson and James McLeod.

The broadcast this evening, although primarily Scotch, will include songs of other nationalities and will therefore prove entertaining. It commences at 8 o'clock.

With the aid of a number of very fine slides he told of the awful misery of the natives who were among the most primitive peoples of the earth. Many of them were at one time cannibals, but in spite of many difficulties, numbers of them had been won over to the Christian faith. Mr. Grubb showed several pictures of the natives, and became evangelists taking the gospel among the tribes at their own expense, and to good purpose.

Pictures were also shown of many of the mission workers, including Charles T. Studd, the founder of the Heart of Africa Mission, who although now over seventy years of age, is still active in continuing his good work, and Miss Harmon, a former Victoria girl, who has taken up medical mission work in Central Africa. There

New Railway Construction To Start, Says Lewthwaite; Capital Pouring Into B. C.

Completing arrangements for the actual construction of construction work on the new railway up the Bear River from Stewart, B.C. W. A. Lewthwaite, who is partner of Hon. H. H. Stevens, M.P., of Vancouver, in the enterprise arrived in Victoria to-day. Snow level in the Bear Valley is now down to three feet and if it keeps on going down, as in the last couple of weeks, the cutting of the line will be started in February, he announced. He explained that the rails required to relay the line from Stewart as far as the Red Cliff and Terminus mines are already there and that the line will be in operation as far as those two properties by next Fall.

After that more rails will be brought in and the line be extended up the valley four miles to the George Copper

mine, where the Consolidated Mining and Smelting Company is undertaking large scale development this season. This extension, he explained, would also serve the Red Top and the Rufus and Argenta properties, which have also been taken by big companies.

"The railway we are building will serve in the Upper Bear basin three or four of what are proving up to be the largest mines in the western part of this continent," Mr. Lewthwaite said. "The increased interest in B.C. mining will not reach its peak for a long time and will continue to grow. The tide of outside investment has at last been turned into this Province and there is now too much money pouring into Vancouver every day for investment in British Columbia development."

are now sixty-five workers in the mission. At the close of his address Mr. Grubb made a strong appeal for workers in the mission fields to spread the gospel, and several men and women, stirred by his message, expressed their willingness to take up the work.

To-night Mr. Grubb will speak at St. Mark's Church to-morrow afternoon at the Y.W.C.A.

SEEKS ALASKA "PANHANDLE" FOR PROVINCE

Kergin Moves to Reopen Alaska Boundary Question to Aid North

That Canada enter into negotiations with the United States to secure the "panhandle" of Alaska, and thus arrange access to northern parts of British Columbia direct from the sea is the proposal advanced by H. F. Kergin, Liberal of Atlin, in the Legislature. Mr. Kergin's proposal to reopen the Alaska boundary question in a friendly way and secure a readjustment of the present boundary between this Province and Alaska is summarized in the following resolution:

"Whereas the northern half of the Province of British Columbia and the whole of the Yukon Territory are bounded on the West by Alaska from 54 degrees 40 minutes North latitude to the Arctic Ocean, a distance of approximately 1,300 miles;

"And whereas the Province of British Columbia is bounded on the West by that part of Alaska known as the 'Panhandle' from 54 degrees 40 minutes North latitude to the northernmost tip of the sixtieth parallel of North latitude a distance of approximately 600 miles;

"And whereas said 'Panhandle' of Alaska is in width approximately thirty miles, and acts as a barrier and is detrimental to the development of the northern half of this Province;

"And whereas the opening of friendly diplomatic overtures between the Dominion of Canada and the United States previous differences of opinion in respect to the Alaska boundary question have been formally adjusted by the Alaska Boundary Tribunal on October 20, 1903;

"And whereas we believe it would be in the interests of both the United States of America and Canada that a readjustment of the Alaskan-Canadian boundary be made;

"Be it resolved: That this House is of the opinion that negotiations should be opened between the Dominion of Canada and the United States of America having in view a readjustment of the Alaskan-Canadian boundary.

"And be it further resolved: That a humble address be presented to His Honor the Lieutenant-Governor, praying that a copy of this Resolution and Preamble be transmitted to the Honorable the Secretary of State or other proper official at Ottawa."

Norman P. Grubb, of the Heart of Africa Mission, who is spending the present week in Victoria, last evening with his story of mission work among the primitive peoples of Africa.

With the aid of a number of very fine slides he told of the awful misery of the natives who were among the most primitive peoples of the earth. Many of them were at one time cannibals, but in spite of many difficulties, numbers of them had been won over to the Christian faith. Mr. Grubb showed several pictures of the natives, and became evangelists taking the gospel among the tribes at their own expense, and to good purpose.

Pictures were also shown of many of the mission workers, including Charles T. Studd, the founder of the Heart of Africa Mission, who although now over seventy years of age, is still active in continuing his good work, and Miss Harmon, a former Victoria girl, who has taken up medical mission work in Central Africa. There

was a short sketch, describing humorous and pathetic incidents in the life of Robert Burns, given by J. Fyfe Wilson and James McLeod.

The broadcast this evening, although primarily Scotch, will include songs of other nationalities and will therefore prove entertaining. It commences at 8 o'clock.

F. F. GRAHAM AGAIN LEADS TWO LEADERS

Saanich Liberals Elect Officers; Ramsay, Whittaker and O'Halloran Speak

election last night held a largely attended meeting in St. Mark's Hall, Boleyn Road. The following officers were elected for the ensuing year: President, F. F. Graham (re-elected); Vice-president, A. E. Jones, secretary, treasurer, E. E. Bell; executive, Messrs. May Whitfield, Bell and Trace; Messrs. A. T. Wells, Honeychurch, Walton, Jeffery, Burton and Geo. Wells.

David Ramsay, president of the Saanich Liberal Association said that judging by such a well-attended meeting it was evident that a great change of public sentiment had occurred and it now seemed easy to get people to take an interest in public affairs.

He believed that the record of this Government was sufficient to appeal to the commonsense of the people as work well done. "Liberalism was for the benefit of the plain people was the backbone of Liberalism."

N. W. Whittaker gave an inspiring address on legislation which had been passed by the present Government and also drew comparisons between British Columbia farms, orchards, stores and industries with that of similar conditions in the United States in regard to taxation, showing that British Columbia was not taxed nearly so much.

C. H. O'Halloran spoke, stating that the Federal Government owing to their commanding majority in the House would give good stable Government. He congratulated the Liberals on having such a fine record of character and ability as Mr. Whittaker as their candidate.

NAVY LEAGUE NOW WELL SUPPORTED

Capt. G. F. Morris Addresses Gathering, Giving Objects of League

With all prominent newspapers of the Dominion wholeheartedly supporting the Navy League, there is a growing feeling throughout Canada that the country must accept the full responsibilities that her new status of national implies. As regards maritime policy no Government will be able to withstand public opinion, stated Capt. G. F. Morris, Dominion organizer of the Navy League of Canada in an address at the Connaught Seamen's Institute last night.

Capt. Morris gave an outline of the league, its aims and objects. He had been connected with it himself for eight years, he said, and thought the people of the Dominion as a whole, especially the manufacturers and business men, have come to realize that there is a definite place for the league in Canada, and that its principles and principles which all Canadians should embrace.

True, the league had been criticized, he continued. It had been claimed the league was militaristic. Some had charged it with being too specific in matters pertaining to the interests of Canada and the Empire. In the belief that the league was formed with exactly the same objectives as the Navy League of Great Britain, it had also been scored for not duplicating the methods of the older body.

The British league had been formed for the primary purpose of impressing on the minds of people of Great Britain the need for an adequate navy to keep open trade routes. This object was achieved and in 1914 the British navy was fully prepared.

CHIEF OBJECTIVES

Satisfying needs of Canada were the chief reason for the formation of the Dominion League, Capt. Morris continued. The league was organized in 1917 under Dominion charter and had as its four chief objectives: Creation of a sea consciousness in the Dominion by means of an educational campaign; raising of funds for philanthropic work such as the establishment of homes for sailors ashore; provision of pensions for merchant marine sailors injured during the war and for the widows of those who were killed while serving on merchant ships; establishment of a sea cadets corps and promotion of maritime interests of the nation generally. The organization was non-political.

The league's work in raising thousands of dollars for pensions for merchant marine sailors had alone justified its existence, Capt. Morris stated. It was also engaged actively in establishing such institutions as the Connaught Seamen's Institute.

CORPS GROWS

The Sea Cadet Corps has now grown to a membership of 5,000 boys in uniform throughout the Dominion, he added. It has spread right across Canada and is linked with England and the "Saltire King." The cadet movement had much of the central drawing power of the league itself, and was as a magnetic needle pointing the way to the future of organization.

Major F. V. Lonsdale gave an illustrated address on "The British Sailing Navy and Equilibrium," dealing with the days when the white-winged frigates, frigates and frigates gave an exhibition of dancing the hornpipe.

A brief address on the practical side of Sea Cadet work was given by Capt. E. Alcock.

Vocal selections were rendered by Mrs. F. O. Claudet, Mrs. Horace Hamlet and Mr. Seymour White and Leading Seaman Tribe. The chorus gave an exhibition of dancing the hornpipe.

James Bay Y.P.S.—An inspiring address on citizenship by Frank Hunter was a feature of the meeting of the Young People's Society of the James Bay Church under the leadership of Robert Blair, convener of the citizenship department, last evening. Miss Marjorie Schroeder led the devotional exercises and Miss Annie Slater read a number of letters acknowledging Christmas gifts sent out by the society. Miss Hawthorne delighted the gathering with violin solos, with Miss May Mason at the piano. The very pleasant evening closed with the singing of "O Canada" and "The Maple Leaf."			

WEST HOLME SUIT AGAIN REVIVED

Application to Go Before Private Bills Committee at Present Session

The city is preparing its third defence to a request for a reopening of the issue over the construction of the Sooke Lake waterworks. The issue is to be revived by a private bill to go before the Private Bills Committee of the Legislature at its next session, when W. J. Taylor, K.C., asks for a determination of questions outstanding as between the city and the former Westholme Lumber Company.

The issue arose in 1910-11 over the construction of the pipeline and other work in connection with the waterworks contract, in which the city stepped in to complete the work.

A settlement of the points between the city and the former contractors was taken through every court in the Province and was referred to the Privy Council. The effect of the Privy Council's decision was the subject of a further test in the courts here and since then twice the subject of appeals to the Legislature on behalf of the Westholme Lumber Company.

The present application by Mr. Taylor brings the matter before the Private Bills Committee of the House for the third time. H. S. Pringle, City Solicitor, is at work on the city's answer to the application.

OBITUARY

The funeral of the late John Cox will take place at McCall Bros. Funeral Home, corner of Johnson and Vancouver Streets, on Thursday afternoon at 2 o'clock. Interment will be made at Ross Bay Cemetery.

The funeral of Albie Dobbie, wife of Colonel H. Dobbie, who passed away in this city on Saturday, was held yesterday afternoon from Oakland Gossip Hall, and was attended by a large number of friends. The service at the hall was conducted by D. McKerracher, and at the graveside by A. Cuff. Interment was made in Royal Oak Burial Park with the following friends as pallbearers: T. H. Maynard, H. G. Gifford, P. Smart, W. B. Fisher, M. Mason and Major H. Rice.

There passed away yesterday afternoon, January 24, at the family residence, 1410 Woodlands Road, Thomas Henry Paulson.

The late Mr. Paulson was born in Nottingham, England, sixty-six years ago, and has been a resident of this Province for over forty years, the last nine of which have been spent in this city.

Mr. Paulson was a member of the Canadian Order of Foresters.

He leaves to mourn his loss besides his widow, one son, Clyde R. Paulson, and a family

TODAY DENTISTS say keep teeth white and sparkling to keep them healthy. Miss Gertrude Davis is advised to use the new-day dentifrice, Pepsodent.

It's Film on Teeth

that makes them lustreless, "off color"
You must remove it.

RUN your tongue across your teeth and you will feel a film. This film, in the light of recent dental findings, is a menace to pretty teeth and gums. Film absorbs stains and turns white teeth dull, "off color." It is the chief cause of the common tooth and gum disorders. It clings to teeth, gets into crevices and stays. Germs by the millions breed in it. They, with tartar, are the chief cause of pyorrhea. Film must be removed each day. Ordinary brushing fails to do it successfully. So dentists urge the special film-removing dentifrice called Pepsodent. No other will make teeth as sparkling white. Mail coupon or ask your druggist for Pepsodent.

GOETHALS FUNERAL

West Point, N.Y., Jan. 25.—The body of Major-General George W. Goethals, builder of the Panama Canal, was

buried yesterday with imposing military ceremonies in the historic cemetery of the United States Military Academy on the plain overlooking the winding Hudson River.

MY KITCHEN NOTEBOOK

by Mary Blake

Domestic Science Counselor

Hot Cocoa Is a Mother's Great Ally

I don't know what we'd do without hot cocoa, for say what you will, children do tire of the steady round of that all-important food, milk. And some children have a positive distaste for it unless presented in a more or less disguised form.

Careful as most mothers are to see that the children's glasses of milk have their full share of cream, I have noticed that very often when they make cocoa they use ordinary bottled milk, from which they even sometimes carefully dip the top layer of cream.

Cocoa Should Be Made With WHOLE Milk

You won't make such a mistake, if you prepare the children's cocoa with Carnation Milk. There's no way to rob the rich, whole milk of Carnation of one tiny particle of cream. Do you know why? Carnation Milk is "homogenized"—that is, every little globule of cream is broken up into particles so minute that they can't rise to the surface but are held captive all through the milk, giving every drop of milk an equally generous share of enriching cream. Every drop has, in fact, a double portion of cream, for Carnation Milk is evaporated to double richness. There's another great advantage in using Carnation in the preparation of foods for children. It's safe. Not only has it been sterilized, but the milk itself is produced under ideal conditions from selected herds, and is the purest of rich whole milk.

Carnation Milk is completely replacing ordinary bottled milk for cooking in many thousands of homes, not only because of its greater uniformity, its dependability, and the economy which its rich creaminess effects, but because of the better results it gives. Because of "homogenization," it gives a smooth, fine texture, a rich creaminess that even the best of bottled milk cannot equal. Soups and sauces have increased food value with the use of less butter. Cakes have a finer texture with better keeping qualities. Puddings, waffles and griddle cakes are more delicate; candies smoother and creamier; ice cream richer, more velvety.

Send for the Carnation Cook Book—"My Hundred Favorite Recipes." It will show you fascinating new qualities to be obtained in old dishes simply through the use of this better milk. It's free. Address Carnation Milk Products Co., Limited, 134 Abbott Street, Vancouver, B.C.

Carnation Cocoa

3 tbsp. cocoa (for children 2 tbsp.), 2 tbsp. sugar, $\frac{1}{2}$ cup hot water, few grains salt, $\frac{1}{4}$ cups Carnation Milk diluted with $\frac{1}{4}$ cups water; $\frac{1}{4}$ tsp. vanilla. Scald diluted milk in double boiler; mix cocoa, sugar, salt; add hot water; cook over low flame 10 to 15 minutes, stirring occasionally. Add scalded milk to cocoa; cook in double boiler 10 minutes. Whisk with Dover beater before serving; place marsh-mallow in cup; pour cocoa over it. Makes four cups.

For Finer Cocoa

CARNATION MILK gives to cocoa a rich smoothness and extra food value obtainable in no other way—just as it does to all cooking. Improves coffee wonderfully. Just pure whole milk evaporated to double richness and sterilized. It keeps. It is economical.

(See recipe above)

Carnation Milk
"From Contented Cows"

ADMIRAL PLUNKETT SAYS HE BELIEVES U.S. IS NEAR WAR

Stenographic Report of Speech He Delivered in New York Is Made Public

Coolidge Asks Navy and Army Officers to Think Well Before Speaking

New York, Jan. 25.—The stenographic report of Rear-Admiral Charles P. Plunkett's address before the National Republican club here last Saturday, in which he was reported to have predicted imminent war and which brought forth comment from President Coolidge yesterday, was made public for the first time yesterday.

On seeing newspaper accounts of his address, Admiral Plunkett, who is commandant of the Brooklyn Navy Yard, denied he had predicted war, and especially took exception to some passages quoting him as predicting war with Great Britain.

"I don't remember what I did say," he told reporters. "You go get the records. My remarks were taken down stenographically."

BELIEVES WAR NEAR
The stenographic report gives the admiral's remarks, in part, as follows: "If I read history correctly and what we are doing to-day, we are nearer war today than we have ever been in our history because we are too damned efficient."

The admiral then asserted that United States business men had "awakened to the fact that we must build a merchant marine and stop having our trade competitors deliver our goods," and added:

"There never has been and there never will be a great nation in this world that is not great on the sea. Just so long as you make that your policy and you follow it through, you are going to have war. I don't care whether it is with Great Britain or some other nation, you are going to have war."

BORAH'S GREAT SERVICE

The New York World (Democrat), in an editorial yesterday, said the attack of Senator Borah, chairman of the Senate committee on foreign relations, "on the jingoism who want to start a race for naval armaments with Great Britain, is perhaps the greatest of all his services to the cause of peace."

"It makes certain the supremacy enthusiasts are not going to get very far in this Congress," said:

"The public sits in comparative calm, worrying less about nothing in the world than the 'super-navy' which this English-speaking country."

The World, the only New York newspaper which commented at length yesterday, said that "super-navy" enthusiasts have been running wild for weeks. Perhaps it is just as well they were allowed to show their hand. We know that, unchecked, they would lead us straight into bitter feud with Great Britain which would almost certainly bring on war. But they will not get away with it, for nothing is more certain than that Senator Borah speaks the real mind of the American people. He will easily rally an overwhelming public opinion to crush this latest jingo manifestation."

A dispatch from Washington yesterday said:

President Coolidge sees no reason why the newspapers of this or any other country should take seriously statements by United States naval officers predicting war between the United States and its commercial competitors.

COMPARISON MADE
Mr. Coolidge is "unable to understand why such a large appropriation bill as that for the Post Office Department can be passed without arousing inflammatory statements whereas the appropriations bills for the army and navy always bring forth statements that the country is about to be faced with dire consequences."

In the opinion of the President, there is little he can do about army or navy officials making this sort of statement, since he feels the moment he calls attention to them it is tempting to muzzle free speech. The President believes it is impossible for a man in a responsible position always to speak his own mind. He has found this to be in his own case, and he has consequently adopted the policy of considering the welfare of the whole country whenever he says anything.

CONSIDERATION URGED
This policy he recommends to those who are charged with the national defense, and he wishes that army and navy officials would take to heart the position of their own country in the world before they launch into any inflammatory remarks.

While he does not look with favor upon any warlike declarations by United States navy and army officers, the President is convinced the people of this country and all other countries will understand the real motive behind such declarations, and will not permit themselves to be disturbed.

Cumberland School Estimates Prepared

Cumberland, Jan. 23.—A special meeting of the Board of School Trustees was held this evening for the purpose of preparing the estimates for 1928, which will be placed before the City Council at their next regular meeting on Monday. There was a full attendance of members of the board and the following committees were appointed: Chairman, Mrs. E. Banks; Messrs. McKinnon, grounds, Mr. McKinnon, D. Bannerman, W. Henderson, finance, Messrs. Bannerman, Henderson and McKinnon; building, Messrs. McKinnon and Bannerman; and Mrs. MacNaughton; purchasing, Mr. A. McKinnon, Mrs. MacNaughton, Mrs. E. Banks; library, Mrs. MacNaughton and Mrs. Banks; medical officer, Dr. G. K. MacNaughton.

TELEPHONE YOUR CLASSIFIED ADVERTISING TO 1090—WE WILL CHARGE IT

Victoria Daily Times

Advertising, Phone No. 1090

RATES FOR CLASSIFIED ADVERTISING:

Situations Vacant, Situations Wanted, To Rent, Articles for Sale, Lost or Found, etc. 15¢ per word per insertion. Contract rate on application.

No advertisement for less than 25¢ minimum, 10 words.

In computing the number of words in an advertisement, estimate groups of three or less figures as one word. Dollar marks and all abbreviations count as one word.

Advertisers who so desire may have replies addressed to a box at The Times Office and forwarded to their private address. A charge of 10¢ is made for this service.

Birth Notices, \$1.00 per insertion. Marriage Card of Thanks and in Memoriam, \$1.00 per insertion. Death and Funeral Notices, \$1.50 for one insertion, 25¢ for two insertions.

DIED

PAULSON---There passed away yesterday afternoon, January 24, at the family residence, 1410 Woodlands Road, Thomas Henry Paulson.

The late Mr. Paulson was born in Nottinghamshire, England, sixty-six years ago, and has been a resident of this Province for over forty years. He had nine of which have been spent in this City. Mr. Paulson was a member of the Canadian Order of Foresters. He leaves to mourn his loss, besides his widow, one son, Clyde R. Paulson, at the family residence, 1410 Woodlands Road, and a daughter, Mrs. J. W. Lee, at 230 c/o'clock from the R. J. Curry and Son Funeral Home, corner Quadra and Broughton Streets. Rev. R. W. Lee will officiate and interment will be made in the family plot at the Royal Oak Burial Park.

Funeral service will be held at 2 p.m. on Friday, January 26, at the family residence.

Funeral service will be held at 2 p.m. on Friday, January 26, at the family residence.

WE HAVE A CLIENT WHO WANTS TO

buy a bungalow of 6 rooms in Fairfield. Will pay up to \$4,000 all cash. Let us have your list of offers at once.

Five or six months, the youth, full apprentice brought four home first, one second and the other third.

Kingman returned the best price when he breeched hogs in the seventh race to pay \$97 straight and \$15.00 place.

Glad Effort and Shasta Grafton each paid better than \$20 for their win tickets. The results were:

First race, three furlongs--1, Glad Effort, \$21.60, \$8.60, \$4.20; 2, Woodgain, \$5.85; 3, Audrey S. \$4. Time, 38.

Second race six furlongs--1, Muriel Lemons, \$17.40, \$6.80, \$3.40; 2, The Corsair, \$5.80, \$3.40; 3, Volt, \$2.80. Time, 1:14 2-5.

Third race, mile and seventy yards--1, Bobbie Doyle, \$11.20, \$6.20, \$3.80; 2, Malinda B. \$3. \$2.60; 3, Doctor Blues, \$4.50. Time, 1:45 3-5.

Fourth race mile and seventy yards--1, Coeur de Lion, \$6.20, \$3.40, \$3.2; 2, Isaman, \$3.60, \$3; 3, Cloud Accelerator, \$5.80. Time, 1:45 3-5.

Fifth race mile and seventy yards--1, Belle K. \$4, \$2.80, \$3; 2, Clementine Jr., \$4.20, \$3.40; 3, Chula Vista \$5. Time, 1:45 3-5.

Sixth race five furlongs--1, Betty O'Neil, \$3.50, \$2.60, \$2.40; 2, Peep O, \$7.20, \$4; 3, Dolly Dune, \$3.80. Time, 1:01 2-5.

Seventh race, mile and seventy yards--1, Kingman, \$97, \$15.00, \$7.30; 2,

World On Dollar Basis; U. S. Rules World Level Of Prices, Says McKenna

London, Jan. 25--The world is on a dollar basis, Mr. McKenna said today.

McKenna, chairman of the Midland Bank, said in addressing the annual meeting of the bank.

"Although gold is still the nominal basis of most currencies," he asserted, "the real determinant of movements in the purchasing power of the dollar."

Mr. McKenna spoke a hopeful word for British trade in 1928. He referred to the great improvement in the relations between capital and labor and to the gradual but steady recovery in trade since the general strike of 1926.

"I am hopeful these tendencies will gain in strength," he asserted. "I do not suggest we have any cause for undoubted optimism, but the background is brighter than a year ago."

CREDIT POLICY

"I ask you how long the world is to continue on a dollar basis," he said. "As long as conditions remain at all similar to those we know to-day, the United States will be able to pursue its credit policy without regard to gold movements and to maintain control over the world level of prices."

The only condition as far as I can judge under which the United States might be drained of its gold surplus is that it would continuously make foreign loans beyond its true capacity to lend. That it will end eventually at times is quite probable. There are indications indeed that it has done so recently. But that it would over-extend itself to make a serious invasion into its surplus of gold seems to me very unlikely."

ACTS AS MAGNET

Declaring the United States held half of the total monetary gold of the world, Mr. McKenna added: "Moreover, its creditor position constitutes a permanent magnet for gold. It is not other way, must pay in gold."

McKenna said that the gold of the world was being drawn to the United States as a magnet.

He said that the gold of the world was being drawn to the United States as a magnet.

He said that the gold of the world was being drawn to the United States as a magnet.

Sack On Pocket For Boxers Who Run Out

New York Officials Will Fine Fighters Who Fail to Fulfill Engagements; Action Taken When Heeneey's Manager Makes Protest; Says Heeneey Slipped When Sharkey Asked Postponement; Muldoon Gives Sharkey Slap in the Eye; Stribling May Be Included in the Heavyweight Eliminations; Rickard Has Few Swings at Risko-Sharkey Bout

New York, Jan. 25.—Headline battlers who attempt to "run out" of matches in New York in the future, will not escape without receiving at least one blow.

The State Athletic Commission decided yesterday to level a \$5,000 "sack" in the form of an appearance forfeit at the treasury of any fighter who declares himself unable to go through with a match on the scheduled date. The fistie fathers announced that legitimate cases of illness or injury, substantiated by its own physicians, will be dealt with "leniently."

INJURED HEENEY'S CHANCE

This action followed the appearance of Charley Harvey, manager of Tom Heeneey, before the commission to protest against Jack Delaney risking injury in bouts scheduled before the French-Canadian battles the New Zealand champion in a fifteen-round match at Madison Square Garden March 1. Heeneey complained that a two-week postponement of his recent draw engagement with Jack Sharkey impaired his fighting form.

The commission refused to hamper Delaney in his avowed purpose of fighting himself into peak condition, but expressed the opinion through William Muldoon, eighty-two-year-old member, that postponements such as the Sharkey-Heeneey affair must be prevented in the future. The board believes that Sharkey, who complained of an injury to his left hand, could have fought Heeneey in December instead of demanding and obtaining postponement until January 13.

CRITICIZED SHARKEY

"If Sharkey had done more fighting and had followed the course Jack Delaney had laid down, he would not have made such an exhibition of himself as he did against Heeneey," Muldoon declared.

"Sharkey drew full seventy per cent of a near-record gate into the Heeneey probably attracted thirty per cent. Yet Heeneey gave everything he had, a 100 per cent performance and the best Jack did was perhaps forty per cent of his best. Lack of ring action did it."

Miami, Fla., Jan. 25.—Tex Rickard last night denied all knowledge of an agreement, as reported in Boston patches, whereby Gene Tunney would be willing to meet Jack Sharkey in a title bout if the latter defeats Johnny Risko decisively.

"I never sent such a telegram," he declared when he read the Boston story quoting a message purported to have been sent by him yesterday to Jess McMahon, in which he was said to have declared that Tunney had agreed to such an arrangement. "Jack Delaney and Tom Heeneey are still in the running, just as much as they ever were, with a bout slated about March 1," he said.

"Sharkey, if he knows anything, knows he has to beat somebody that is good before he gets a chance at Tunney or Dempsey, after his exhibition with Heeneey."

He emphasized that "nothing had happened" to the elimination series he previously had decided upon to produce a challenger for Tunney's heavyweight crown.

RECEIVED NO TELEGRAM

"I have neither received nor sent any telegram relative to a bout for Jack Sharkey with Gene Tunney, Jack Dempsey, Johnny Risko or anybody else," he declared.

Rickard added that he would have to wait for word from his New York representative "to find out what its all about," before commenting on the proposal to match the champion of a Sharkey-Risko bout with Tunney.

Rickard made his statement on his return late last night from Palm Beach where he spent the day with Tunney.

He indicated a possible further complication in the heavyweight situation with the statement that if "Young Stribling fights just two more times like he did last night he will be ready to go on with anybody."

Rickard saw the Macon, Ga., boy knock out Martin Burke, of New Orleans, in forty-five seconds in a bout in which he showed a complete reversal of his former style.

The report from Boston which Rickard denied is the following: "In a test that shuffled an entirely new aspect into Tex Rickard's heavyweight elimination tournament, Jack Sharkey, of Boston, was signed here yesterday to meet Johnny Risko, of Cleveland, at Madison Square Garden on March 12, the winner to meet Gene Tunney in a title bout next Summer."

"Johnny Buckley, Sharkey's manager came to terms with Jess McMahon, Madison Square Garden matchmaker, after a deadlock of almost twenty-four hours on matter of a Sharkey-Risko bout over terms, McMahon came to Boston Monday to sign Sharkey for the Risko bout, with the understanding that the winner would meet the victor of the impending Jack Delaney-Tom Heeneey fight on March 1, to determine Tunney's first 1923 opponent. Buckley flatly refused to consider either Delaney or Heeneey as prospective opponents and the conference broke up about dawn yesterday."

"McMahon telegraphed Rickard at Miami, Fla., for instructions and received the reply that Tunney would be willing to meet Sharkey on condition that the Boston ex-salor decisively whipped Risko in a bout to run nothing short of fifteen rounds. When Tunney's views were conveyed to Buckley at a second conference to-day, the Boston man agreed to a bout, and

VARSIY RUGGERS NOT TO VISIT N.Z. FOR YEAR OR TWO

Vancouver, Jan. 25.—Varsity's English rugby team will not make a "trip to New Zealand" this year. It was announced at the regular weekly meeting of the Vancouver Rugby Union this week. Arrangements had been in progress ever since the visit of the All-Blacks, but word from "Down Under" stated that they would be unable to entertain the students until next year, or 1930.

The postponed McKeehan Cup game, between Victoria and Varsity, originally scheduled last month, has been definitely fixed for Saturday, February 18 at Brockton Point, when the Islanders will make their first appearance of the season on a Vancouver field.

With this game scheduled here against the Waratahs of New South Wales, prices were fixed at \$1.50 for the grandstand and \$1 admission to the grounds. The reserved seat plan was open on February 3. The dates for the Brockton Point games are February 25, 29 and March 3.

FINE PLAYERS WILL PERFORM HERE FRIDAY

Del Debrisay, Sculling Champion, Former Victoria Boy, With Portland Team

Star of Last Year's Trail Team Also to Appear Against Caps at Arena

Portland is sending a very fast and powerful team to Victoria for the Wilkerson Cup hockey game on Friday night at the Arena. The Capitals will have to be at the peak of their form for the struggle if they wish to retain the trophy which they won last week by defeating the Towers.

Several well-known players will be with Portland including Del Debrisay, whose father used to be a famous sculler with the J.B.A.A. Young Debrisay is now the senior sculling champion of the N.P.A.A. He was born in Victoria and before leaving for Portland, played amateur hockey here.

FROM FAR AND NEAR

"Peggy" MacDonald from Los Angeles will be the center striker, who played with Trail last year in the Allan Cup semi-finals against Port William, will pair on the defence with Sandy Sandhurst, a famous "old reliable."

The Wilkerson Cup is now being shined up and will be on display in the window of W. H. Wilkerson, Douglas Street Jeweler, the donor, in a day or two. Mr. Wilkerson is tickled pink now that the cup is back in town after an absence of five years. Individual miniature cups are to be presented to the players.

The Capitals have had two fast workouts this week and are in great shape for the game.

Belanger and Bass Both Draw Fire of N.Y. Boxing Chiefs

N.B.A. Champs Indefinitely Suspended For Recent Ring Activities

New York, Jan. 25.—Two champions of the National Boxing Association, Frenchy Belanger, of the flyweights, and Benny Bass, featherweight star, came under the ban of the New York State Athletic Commission yesterday. Bass, center for many months in the controversy over leadership of the 126-pounders, was indefinitely suspended along with Phil Gansman, his manager, and the pilot's entire stable of boxers, for "running out" of a match with Tony Canzoneri in Madison Square Garden next Friday night. Belanger, Canadian youngster, suffered the same punishment for failure to answer a summons to appear before the commission.

Drastic action against Bass and his manager followed the commission's discovery that Bass is scheduled to fight William, New York negro, in Atlantic City next Monday night. The Philadelphia had his match with Canzoneri, recognized in New York as the featherweight king, postponed until February 10 because of illness.

Commissioner decided that any sickness, discovered a week ago, that permitted Bass to fight Monday night but prevented his appearance here three days earlier, called for summary treatment. In spite of the disciplinary action, Bass will be given an opportunity to fulfill his engagement with Canzoneri in the Garden February 10.

Belanger was called before the board for questioning in regard to the alleged fouling of Frisco Grande, of San Francisco in a bout at Buffalo, N.Y. January 16. Indefinite suspension followed failure either of Belanger or a representative to answer the summons.

FORTS BEAT PORTS

Fort William, Jan. 25.—Fort William's league-leading hockey team gave Port Arthur the short end of a 4-2 score in their inter-provincial league match here last night.

DETROIT NEEDED STRENGTH BADLY BUT CRITICS ALL THINK ST. LOUIS BROWNS GOT BEST OF DEAL

By BILLY EVANS

When major-league clubs make trades, the big thought is to strengthen weak spots by giving away surplus material at positions where a club seems well fortified.

On the surface, a club may appear to be getting considerably the worst of a transaction, yet the manager of the club may be perfectly satisfied with his deal, feeling that he has accomplished the thing he set out to do—plug up certain holes in his lineup.

Unquestionably, the big deal since the close of the season was the one that involved the Detroit and St. Louis clubs of the American League. This deal called for the transfer of Outfielder Heinie Manush and First Baseman Lu Blue to the Browns, for Outfielder Harry Rice, Pitcher Van Gilder and Shortstop Galloway.

The baseball experts seem to be unanimous in the opinion that St. Louis got all the better of the deal, that Manager Moriarty of Detroit took one right on the chin and is still staggering.

THINK DETROIT STUNG

There is no doubt as to the class of Manush and Blue. The first, named as one of the best hitters in the game, a good outfielder, while Blue is generally ranked next to Lou Gehrig among the first sackers. I have yet to talk with a scribe who believed Detroit got anything like a proper return.

However, I am positive that if you discussed the matter over with Moriarty, he would not take him long to convince you that the deal was a good one for Detroit, that he had plugged up several glaring weak spots on his club by a shrewd transfer.

Last season Detroit boasted an outfield that could hit a mile and was far better than average in the field.

Reading, left to right: Elam Van Gilder, Chick Galloway and Harry Rice

with the exception of throwing. That was the one glaring fault in the Detroit outfield.

No doubt that was the spot Moriarty desired to strengthen when he made the deal. In Harry Rice, he gets one of the greatest throwing outfielders in the game, a player who also measures

up to the ability of Manush in other departments of play.

Another defect in Detroit's defence last season was the lack of a relief pitcher. The illness of George Davis, which kept him out of the game all season, played havoc with Detroit's chances. I believe I am conservative in saying Davis would have saved at least a dozen games for the Tigers that went into the lost column.

In getting Van Gilder, Moriarty is gambling with a pitcher who has plenty of stuff and a giant physique. I am sure his thought is, Van Gilder will take the place formerly filled by Daus, that of game-aver.

SHORTSTOP SURPRISED

Last season Shortstop Jackie Tavener, while chopping some ice with a small ice pick, severed a tendon in the second finger. What was regarded as a minor accident at first has turned out to be a very serious one. Tavener has practically lost the use of the finger in gripping a ball.

Since the injury is on his right hand, it has greatly interfered with his throwing. Getting Shortstop Galloway, formerly of the Athletics, after he had passed to the minors, is merely a protection against the possibility that Tavener may not be able to play.

While Moriarty cut loose from a great player in Lu Blue, he had two men for the first base position and it so happened he liked Johnny Neun better than Blue.

Thus, a resume of the deal shows that Moriarty added a great thrower to the infield, a pinch hitter to the outfield, is gambling with Van Gilder to fill the role of pinch pitcher and has Galloway in reserve in case Tavener cannot go at shortstop.

However, who really got the worst of the deal will not be known until a year hence, then we shall see what we shall see.

Canadiens Piling Up Records In Hockey

Frenchmen, Not Satisfied With Record-winning Streak, Are Setting Up Great Scoring Mark; Drive Home Goals in Wholesale Style, While Nobody Seems Able to Score Against Them; Frenchmen Massacre Chicago 10-0; Boston and Pittsburgh Draw; Ottawa Win

Cecil Hart and his fast-skating Canadiens seem to be making records in the National Hockey League this season. Not satisfied with showing up all the other teams and making a runaway race of it, the Canadiens put on a streak of nineteen games without a defeat, a record for professional hockey. Now they are out compiling scoring honors which have never been approached in major hockey. Recently they defeated Toronto by 9-1 and last night they plastered the Chicago Black Hawks with a 10-0 defeat. While the Canadiens are scoring goals wholesale they are presenting a very tight defence and Hainsworth, in goal, has the best record of any goalie in the league.

INCREASE LEAD

The Canadiens added another two points to their lead in the Canadian section last night, while Ottawa kept in the running for a place in the play-off by defeating the Americans in New York. Ottawa are now only one game behind Toronto and Montreal for second place, with New York in the cellar.

Boston gained a point through virtue of drawing with Pittsburgh last night, and now lead the American section by one point over the New York Rangers.

LEHMAN HAD HOT TIME

Hughie Lehman, new manager of the Chicago club, had no time to do any managing last night, when the Canadiens were heaving pucks at him. Hughie never saw so many pucks in a hockey game before, and when "Old Eagle Eye" misses ten pucks in a game he must be having a hectic time. He has a big job ahead of him in getting the Chicago club going properly. He is the third manager in two years. Pete Muldoon quit last year because Major McLaughlin, better known as the husband of the former Irene Castle, would not let him have a free hand. McLaughlin has had little experience in hockey. This year Barney Stanley tried to make the club go, but he has been displaced and now Lehman is on the quarterdeck.

Montreal, Jan. 25.—Canadiens defeated the willing but entirely incapable Black Hawks here last night by a 10-0 score. It was the largest margin of victory secured by any team in the N.H.L. this season.

The visitors were entirely out of the picture, and the veteran "Eagle Eye" Lehman, in the Black Hawk net, had the busiest night of his long career as a goaltender.

WITH THE BOWLERS

The Western Canada Radio, leaders in the Commercial Bowling League, dropped two games to the Victoria Baggage last night, but managed to retain hold on first place.

A Porter of the losers carried off high aggregate and high individual honors with 338 and 121, respectively. The scores follow:

VICTORIA BAGGAGE	
P. Corcoran	131 185 168—484
A. Vivian	163 123 157—443
R. Hiscocks	130 167 157—454
J. Wilson	148 131 156—435

TOO MANY HAND BOOKS

Winnipeg, Jan. 25.—Deprecating the spread of hand book betting throughout the western provinces, the Prairie Throughbred Breeders and Racing Association, in annual meeting here yesterday, adopted a resolution urging the Attorneys-General of Manitoba, Saskatchewan and Alberta, to "take immediate action in an endeavor to eliminate this evil."

The association has control of turf events at the recognized tracks in Manitoba, Saskatchewan and Alberta.

Boucher, McKinnon, W. Boucher.

Boston, Jan. 25.—For the third time this season Boston Bruins and Pittsburgh Pirates battled to a scoreless overtime tie in the N.H.L. contest here last night. In their three meetings the teams have played a total of 210 minutes without a tally. The single point gained by the Bruins, as a result of the tie, placed them at the head of the American division of the league, as the New York Rangers, with whom they were bracketed in the standings, were idle last night.

Hornsby Too Rough On Giant Players

Inside Story of Trade Is That "Rajah of Swat" Ruled With Iron Hand When He Replaced McGraw Last Year and Players Resented It; Hornsby Said to Have Had Four Fist Fights With the Giants Last Season; Boston the Only Place McGraw Would Let Hornsby Go

STONEHAM TAKES RESPONSIBILITY OF HORNSBY DEAL

New York, Jan. 25.—The Evening World to-day quotes Charles A. Stoneham as assuming full responsibility for trading Rogers Hornsby to Boston and explaining that it was necessary to "centralize McGraw as the personality that directed the Giants."

In a statement to The Evening World, Mr. Stoneham made it clear that no personal controversy between himself and the second-baseman was involved.

"The only time I ever talked to Hornsby during the season," said Stoneham, "was when he had his batting slump and was being razed from the stands. I sent for him and told him not to pay any attention to that. He told me it did not bother him. That was all I said to him all season. That story of his having been insulted in Pittsburgh is absolutely untrue."

CHANGED TACTICS

The Giants' executive, asserting he expected to meet "violent criticism" for his action, explained that he decided to trade Hornsby after noting how he managed the team in McGraw's absence.

"I had noticed that with McGraw away the club had adopted different methods, that the hours were different and that the general method of procedure was different. The change may have been all for the better but I felt it was not the spirit of McGraw. It dawned on me that to remedy this and prevent any possible conflict in authority it would be best to send Hornsby elsewhere."

Stoneham disclosed that the Giants considered offering Hornsby to either Pittsburgh or Chicago but actually dickered only with Cincinnati and Brooklyn before completing the exchange finally with Boston.

English Cricketers Held to Draw When Africans Close Well

Durban, S.A., Jan. 25 (Canadian Press Cable).—The third test match between cricket teams representing South Africa and England ended to-day in a draw.

Scores were: South Africa 246 and 464; England 430 and 135 for two wickets. Five test matches are to be played during the present tour of the Marylebone English team.

England won the first two. South Africa by splendid cricket in their second innings of their third test match with England to-day gave the Marylebone touring team the task of making 281 runs to win. The scores at the test interval to-day were: South Africa 246 and 464; England 430 and 39 for one wicket.

Runs came quickly on the South Africans second innings. Nicholson and Morke scored a good partnership, the former scoring 73 and the latter 45, after lunch, Beane, the South African captain and Nupen played most of the afternoon in fine style. Beane was finally out for 73 and Nupen made 68.

From the best of sources it is understood that Hornsby's private business affairs, his gambling suits, etc., had nothing to do with it. His transfer became necessary because he tried to be too hard with the players and they wouldn't stand for it.

They wouldn't dare to send him to Pittsburgh or Chicago, because his playing might hinder, and he continued to rule with a strong hand, telling the players that while he might not be able to handle them with his hands he still was their boss.

OLD PLAYERS COMPLAIN

Some of the older players are understood to have gone to McGraw with their troubles, and he continued to rule with a strong hand, telling the players that while he might not be able to handle them with his hands he still was their boss.

BY HENRY L. FARRELL

No baseball deal completed in years has attracted the interest and comment that the transfer of Rogers Hornsby from the New York Giants to the Boston Braves for Frank Hogan and Jimmy Welch has developed.

For Hornsby, rated as a \$300,000 player by New York a few years ago, one of the greatest right-hand hitters of all time, the basest second baseman in the league and third ranking player in the valuable player award, the Giants got a promising young catcher and a fair outfielder.

Officials of the Giants insist there was no cash involved and that the deal was arranged to "avoid any future conflict in the management of the club." In spite of the insistence of the Giants officials that the deal was made only for the best interests of the club, the public seems to be of the opinion that there was something much bigger behind it, and because of a recent gambling suit in which Hornsby was involved there are certain suspicions being spread about.

PREVENT REBELLION

However, from the best of sources, it is known that the Giant owners really traded Hornsby to restore some sort of morale on the Giant club and to prevent an open rebellion next year.

Hornsby's trouble with the basemen, it is known from several of the New York players, arose from the attitude Hornsby assumed when John McGraw became ill last season and was unable to accompany the club on a western trip. Hornsby, who previously had been nominated by McGraw in a public statement as the next manager of the club, was about to give them or leave the trip.

Hornsby then, according to these players, tried to "out-McGraw McGraw" in his stern methods of management, and the players didn't take to it kindly. They stood for rough riding from McGraw because he was regarded as the "old man," and they had to take what he wanted to do. McGraw was the club, and the New York club is considered a very good spot by the ball players.

DID NOT LIKE IT

The players refused to take it from Hornsby. They didn't like the way he bossed them even when McGraw appointed him captain, and he resented the manner in which he corrected their method of playing. And they rebelled against his autocratic attitude when he became assistant manager.

The feeling reached such a high point that there were four big fist fights in the club house in which McGraw was captain, and he continued to rule with a strong hand, telling the players that while he might not be able to handle them with his hands he still was their boss.

OLD PLAYERS COMPLAIN

Some of the older players are understood to have gone to McGraw with their troubles, and he continued to rule with a strong hand, telling the players that while he might not be able to handle them with his hands he still was their boss.

When the Giants decided that he would not be sent elsewhere they were confronted with the problem of where to send him and they decided to make the best possible deal with a club that would benefit least by his addition.

They wouldn't dare to send him to Pittsburgh or Chicago, because his playing might hinder, and he continued to rule with a strong hand, telling the players that while he might not be able to handle them with his hands he still was their boss.

ONLY ONE CLUB

The Brooklyn Robins and the Philadelphia Phillies didn't have players McGraw could get. The Phillies had a good catcher, second baseman and an outfielder, but the club could not assume Hornsby's \$400,000 contract. The Brooklyn club with the high-priced Banerjee could not take on another \$400,000 payroll burden, so only Boston remained.

McGraw always has liked Hogan and he regards him as the most promising catcher in baseball, and as the Giants need a catcher badly, the deal was made.

From the best of sources it is understood that Hornsby's private business affairs, his gambling suits, etc., had nothing to do with it. His transfer became necessary because he tried to be too hard with the players and they wouldn't stand for it.

City Basketball

The Gyros will meet the V.M.D. in the men's "C" division of the City Basketball League to-night at the Centennial gymnasium.

Navy and Garrison will meet in the first game at 7:30 o'clock.

Victoria College and High School will play in the third game.

Tampa, Fla., Jan. 25.—Clark Griffith, president of the Washington Americans, to-day announced the unconditional release of Tyja Specker, centre fielder, effective February 1. The announcement was made after Specker had failed to comply with Griffith's demand to voluntarily reduce his own salary.

No Upsets in First Round of Covered Court Tournament

Montreal, Jan. 25.—The first day's play in the Canadian covered court championships here provided no upsets in form and all the favorites advanced to the second round. Willard Crocker, Montreal, eliminated J. W. Woods, of Ottawa, 6-2, 6-2, while another of Canada's Davis Cup players, Jack Wright, defeated J. G. Wayland, Montreal, 6-1, 6-1.

Speaker Released

Tampa, Fla., Jan. 25.—Clark Griffith, president of the Washington Americans, to-day announced the unconditional release of Tyja Specker, centre fielder, effective February 1. The announcement was made after Specker had failed to comply with Griffith's demand to voluntarily reduce his own salary.

TO-DAY'S GRAIN MARKETS

(By Branson, Brown & Co. Limited)

Winnipeg, Jan. 25.—Wheat market opened about 2c lower this morning, based on the weak cables, but held steady around opening prices most of the day, although there were one or two dips. Further liquidation was in evidence and long holders appear to have become nervous of their position. The buying was difficult to locate, but was mostly coming through commission houses and holders of daily bids. Seaboard houses were doing nothing and export business was practically nil. Broomhall reports Canadian wheat fairly held, but that Argentine is inclined to press their offerings and prices in that country are declining. October, the new crop future which showed the greatest strength yesterday, was the weakest month to-day, as buyers of yesterday were unwinding, there being also some selling of Winnipeg October against purchases of Chicago July. The pool was credited with selling a little wheat in the local pit.

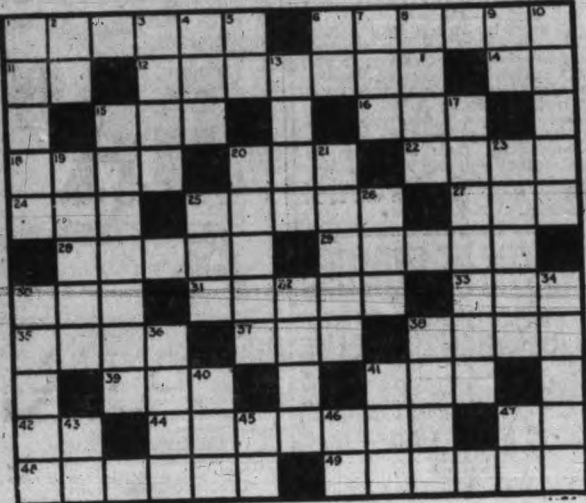

Unfavorable reports continue to arrive from winter wheat belt, and evidently crop conditions are not of the best. A Winnipeg statistician figures there are 252,000,000 bushels of Canada's 1927 wheat still in the country, against 200,000,000 at this time last year. If these figures are correct, and they appear to be, it means that it will call for an average export of 1,000,000 bushels a day until the last of September to dispose of it.

Flax—There was further liquidation in flax to-day, which found a very moderate buying power. Prices closed 1 1/2 lower.

- Solution of Yesterday's Puzzle

as can be. Just play with him. Don't be afraid. Why don't you have a nice parade? Line all the animal crackers up and quite a sight you'll see!"

The Tinsies now felt very bold, and so they did as they were told. A lot of animal crackers formed into a neat long line. "All ready! March!" the slim man said. And then the long line moved ahead. The Tinsies stood and watched it, and then shouted, "That is fine!"

To-morrow's Horoscope

THURSDAY, JANUARY 26, 1928

Astrologers find this rather an uncertain day, but adverse aspects appear to be strong.

It is wise to postpone important business until a more auspicious rule prevails since there may be a tendency to be exacting and to conform to outworn standards.

This may be a depressing day to the aged and to all who are inclined to look upon the serious side of life.

Recreation should be sought by young and old alike, for to sensitive should the way is most disturbing.

There is to-day a benefic aspect governing financial matters which have been previously arranged.

Banks and bankers are well directed, but there is an unfavorable sway for those who would borrow money.

The stars presage among the other reactionary tendencies a change in regard to instalment purchases and time contracts.

Sound business methods that safeguard the family are to be widely preached and taught.

Although the average man and women will become more and more interested in saving those who possess wealth will become magnificently extravagant, it is prognosticated.

In the United States entertainments that rival those of past monarchies are to become common and banquets are to become of historic gorgeousness.

This is not a lucky rule for love affairs and it is wise to delay the pledging of any sort of troth.

Persons whose birthdate it is may be tempted romantic adventures in the coming year which will be of vital importance.

Children born on this day may be too meek to make the most of their talents and should be trained to protect themselves.

THE TINYMITES

STORY BY MAL COCHRAN—PICTURES BY KNICK

The Tinymites all yelled, "Hurray!" And then they heard the cowboy say, "It's lucky that I came along in time to save you all. This tiger's wild, and very mad, and you should surely feel real glad that I was near at hand, and heard your frightened voices call."

"We are real glad," we Scouty cried. And then each Tiny bravely tried to thank the cowboy for his help. "Oh, that's all right," said he. "My coming was your only hope. For me to catch the tiger was as easy as could be. Then Clowzy said, "Don't let him loose. I think for us he has no use." Just then the wild beast trainer came and said, "Why this alarm?" The Tinsies told him of their plight. Said he, "Well now you're all right. I'll tame this husky tiger—so that he will do no harm."

He cracked his whip up in the air,

Cough Relieved by First Dose

Like a flash Buckley's Mixture penetrates and clears the throat and chest. This immediate relief is due to the unique nature of "Buckley's". It's quite different from ordinary cough syrups. One dose stops coughing—and there are 40 doses in a 75-cent bottle! Every drugist sells "Buckley's" under a positive guarantee. Get a bottle today.

MAN KILLED BY ROBBERS

Clinton, Okla., Jan. 25—Ben Kehn,

cashier of the Bessie State Bank here, was killed yesterday when he resisted two robbers who held up the bank. The men escaped with \$1,000.

Care of Babies

Why do so many, many babies of today escape all the little fretful spells and infantile ailments that used to worry mothers through the day, and keep them up half the night?

If you don't know the answer, you haven't discovered pure, harmless Castoria. It is sweet to the taste, and sweet in the little stomach. And its gentle influence seems felt all through the tiny system. Not even a disagreeable dose of castor oil does so much good. And it is so pleasant to take. Taste it yourself, and you'll know why "Children Cry for it."

Fletcher's Castoria is purely vegetable, so you may give it freely, at first sign of colic, or when you even suspect the approach of constipation, or diarrhea. Or those many times when you just don't know what is the matter. For real sickness, call the doctor. Always. At other times, a few drops of Fletcher's Castoria. See how quickly all fretfulness or wakefulness will cease!

Only one word of warning: the above advice is true of genuine Castoria. The kind called Fletcher's, bearing Fletcher's signature is genuine—and

Children Cry for

Fletcher's CASTORIA

CITY SCHOOL BOARD FINDS COSTS RISING

Additional Teachers Run Salary Roll Up \$11,382

No Mention Made of Extraordinary Estimates Or Building Plans

School costs for the year may be higher. Preliminary discussion of its ordinary estimates by the City School Board last night showed an increase in the total cost of the city school system, subject to any pruning that can be accomplished by the board in further sessions. The items under review did not include the extraordinary estimates, in which the financing of a junior high school plan is expected to be mentioned. The ordinary estimates, pending further revision, stand at \$532,938, compared with \$523,729 actually spent last year.

Teachers' salaries, showing an increase of \$11,382 through additions made necessary by increasing school rolls, proved the only item that has increased to any extent. Teachers will receive \$291,588 this year, it is estimated, compared with \$280,206 in 1927, when fewer were employed.

The average for the city now is thirty-eight students to a classroom, or the maximum that can be cared for by the staff enrolled. The figures do not include the engagement of the staff for the night school, estimated at \$6,500 in addition.

CREDIT BALANCE
The board reported a favorable credit balance of some \$4,000 for its operation last year, after increased receipts had taken care of slight over-expenditure in some departments and left the balance stated. The High School cafeteria proved a bright spot in the figures, fully paying its way in its inception year.

Preliminary estimates' discussion last night revealed little change in school arrangements, and included no mention of a middle school or other building programme, apart from repairs and upkeep to existing buildings. The board may have to pay more for coal this year, it was reported, as the contract for supply expires and renewals may be at a higher figure. The board decided tentatively to divide its present quarters to make private offices its secretary, W. F. C. Pope. Technical equipment was badly needed reported W. C. Moresby, chairman of the building and grounds committee. Plumbing and heating repairs last year made inroads on estimated figures, and included unlooked for items which overrode the amounts allotted, said Mr. Moresby, who called attention to the fact that the building and grounds committee had kept its totals within the estimated sum nevertheless.

The board set down \$1,000 tentatively as the cost of eliminating double desks and replacing these with single desks in one or two schools not yet outfitted with the modern plan.

After a preliminary study of costs likely to be met this year the board referred all figures to its finance and building and grounds committees for study and report.

The estimates considered were the ordinary estimates, while mention of the extraordinary estimates has not yet been made. Any building programme in relation to a middle school or otherwise would show in the extraordinary estimates for the year, it is understood.

COST OF ESQUIMALT WAR MEMORIAL

Reviewed at Final Meeting of Memorial Committee

Finances regarding the Esquimalt War Memorial Committee were reviewed at the final meeting of the Esquimalt War Memorial Committee held at the home of Mr. and Mrs. Booth, 923 Esquimalt Road, Monday, Rev. Canon Stocken presiding. The treasurer's final report was read, showing all monies received and expended. The cost of the memorial was \$3,091.45. The committee's expenses were \$44.30, which was considered extremely low, taking into consideration the amount of time and work necessary to collect the funds.

The final donation list is as follows: Previously acknowledged, \$2,894.30; Colonel Winby \$20, proceeds from dance \$21, proceeds whilst drive \$50,

SCHOOL JANITORS ASK PENSION PLAN

A letter from school janitors and engineers to the City School Board last night asked inclusion in some form of superannuation benefits plan. The janitors and engineers are excluded from any scheme introduced by the city unless the board takes action to make it otherwise, stated the letter, asking that attention be given to the request. The plea was referred to the next regular meeting of the board.

bank interest \$234.0, P. R. FROM THE TIMES JANUARY 19
LEATHER PRICES TO RISE, IS REPORT
Toronto, Jan. 19.—Prices of leather are due for a sharp rise within the next few months, according to the Tanners' Association. President M. Morfit, president of the Tanners' Council of America, says: "An examination of the world situation that during the past five years the world has been producing more leather than it has been consuming. During this time it has been drawing upon stocks which existed. These stocks are now exhausted, and world requirements have to be met out of current world production."
